## RETURN OF TROOPS BRINGS QUIETNESS IN HERRIN RIOTS

**Six Men Were Killed, Two Known Wounded  
in Battle During the Afternoon — Trouble  
Starts When Sheriff Galligan Goes to  
Garage to Make Levy on an Automobile**

HERRIN, Ill., August 30. (AP)—The tension between followers of the Ku Klux Klan and their opponents that has existed in Williamson county for several months came to a head this afternoon when six men were slain in a renewed warfare between the two factions. Again Herrin took on the aspect of a town ruled by martial law, when two companies of the Illinois State Guard moved into this mining town and, by their mere appearance, forced peace back upon the warring factions.

Sheriff George Galligan announced tonight that peace had been restored and that he was prepared to cope with the situation, supported by his force of deputies and the state militia. It was the third open outbreak in Williamson county which caused the mobilization of state troops whose appearance brought back peace and quiet among the turbulent population of the United States' greatest mining county.

The clash reached its climax this afternoon, it was said, when an automobile occupied by Sheriff Galligan, Ora Thomas, Bud Allison, Galligan's deputies, Earl, Carl and Bernie Shelton, the first two indicted in connection with the February disturbance caused by the first clash between klan and anti-klan forces, stopped in front of a garage on Monroe avenue.

## PRESIDENT KEEPS HIS ENGAGEMENTS DOWN TO MINIMUM

**Works to Clear up Accumulated Government Business**

WASHINGTON, Aug. 30. (AP)—President Coolidge laid aside political problems for a busy session at his desk this morning devoted to government business and in the afternoon received the Prince of Wales.

Mr. Coolidge has kept his daily engagement calendar down to a minimum since returning from Plymouth, Vermont, devoting his attention to clearing up his such government business as has accumulated.

A quiet week-end is in prospect for the president and it was said at the White house today that he had no plans for Monday Labor Day. At the same time it was rumored that several labor representatives expected to call on the president today.

Mr. Coolidge expects to start work soon on his address to be delivered next Saturday at Baltimore at the unveiling of the Lafayette statue, but it is understood he plans to refrain from any direct political discussion in this speech.

The Republican National committee reported today that Claudius H. Huston, of Chattanooga, Tenn., had declared prospects in Tennessee and Kentucky very bright for Republicans after making a survey of the two states. Good margins for Coolidge and elections of a Republican senator from each state were declared by him to be a "very likely possibility."

The president accepted an investigation today to review the defense day parade here Sept. 12. He will not speak at that time it was said.

## JUSTICE J. FORD THROWS SUPPORT TO LA FOLLETTE

**Formerly Republican,  
Disgusted With Both  
Old Parties**

WASHINGTON, Aug. 30.—La Follette campaign headquarters made public today a letter to the Wisconsin senator from Justice John Ford of the New York supreme court announcing his intention to abandon his former connection with the Republican party to support the independent presidential ticket this fall.

Justice Ford attacked the Republican party as having "this year taken its stand as the champion of the rapacious forces" while he said the Democratic national convention adopted a "dishonest, cowardly and platitudeous platform and selected a tried and true servant of plutocracy as its candidate for president."

"Formerly a Republican I have long since lost hope that my old party would abandon its subservience to the predatory interests and return to the political faith of Lincoln and the service of the plain people," the letter said.

"Bolder than ever it has this year taken its stand as the champion of the rapacious forces which have controlled the national government during the present and previous Republican administrations—the identical forces against which Roosevelt rebelled in 1912."

"With the reactionary platform and tory candidates of the Republicans, a rare opportunity was presented to the Democratic party for a sweeping victory if it only had the honesty and the courage to espouse the cause of popular rights and declare aggressive war upon the abhorrent powers which dominate our government."

"I had hoped for that. Instead the Democrats adopted a dishonest, cowardly and platitudeous platform and selected a tried and true servant of plutocracy as its candidate for president."

"Under those conditions I hail your candidacy with deep satisfaction. . . . Your stand for divesting the federal judiciary of its irresponsible power, especially recommends your candidacy to me."

"The supreme court of the United States is an absolute despotism. . . . So long as that appointive, life term oligarchy remains the supreme power in the nation, our boasted democracy is a sham and the kind of government Lincoln lived and died to perpetuate becomes an idle dream."

"Believing as I do in the principles you stand for, I should consider myself guilty of conduct sounding in treason should I fail to give my full support to the cause you represent."

Both Senator Wheeler, the independent vice-presidential candidate and Senator La Follette give the day giving finishing touches to Labor Day addresses which will institute their campaign appeals to voters. Senator Wheeler will leave Washington Sunday night for Boston where Monday he will begin a six day stumping tour of New England cities.

## DR. SCHACHT ASSURES ITALY THAT GERMANY IS EAGER FOR PLAN

**Concedes Possibility of  
Country Becoming Re-  
vived Nation**

ROME, Aug. 30. (AP)—Dr. Hjalmar Schacht, president of the German reichsbank, who is in Rome for a series of official conferences with Premier Mussolini and Minister of Finance DeStefani has given an interview to Tribuna in which he lauded the Dawes plan as "an intelligent solution of the complex economic problems of reparations."

The German financier declared that Germany was eager to cooperate wholeheartedly with Italy whose economic and industrial progress since the war he described as "astounding."

He detailed Germany's impoverishment and declared that the Dawes plan recognized the axiomatic principle of modern economics—that if one important unit of civilization suffers all others are bound ultimately to suffer in the same proportion.

Germany, Dr. Schacht emphasized is poor today in a monetary sense.

In regard to Germany's again growing rich and powerful as feared "by Germany's enemies," Dr. Schacht conceded this possibility in a revived nation. He said that a country of 60,000,000 people with the will to live and produce, is bound ultimately to make itself felt in the world. He declared that a similar number of negroes could perhaps be ignored as an economic factor, but he declared "it is silly to suppose a race like the Germans could ever be similarly reduced."

## Bryan and Dawes Have Nice Chat Together

LINCOLN, Neb., Aug. 30. (AP)—The vice-presidential nominees of the two old parties—Charles G. Dawes, Republican and Charles W. Bryan, Democrat—met here today, renewed an acquaintance formed 30 years ago in this city, and parted as friends.

Discussion of politics did not enter into the unusual meeting which took place in Governor Bryan's office at the Nebraska state capital, and which lasted 15 minutes. There was an exchange of reminiscences; some talk about the growth of Lincoln since the early nineties and the recollection of some amusing incidents in their lives as residents of this city.

The nearest approach to politics came when as they were saying good bye, Mr. Bryan remarked: "Well, General, I wish you success in all your future efforts and undertakings except at the election in November."

Mr. Dawes laughingly expressed his thanks. The meeting between the two came about thru what amounted to a mutual agreement. Governor Bryan in a statement issued yesterday on the arrival of his opponent in Lincoln to deliver a campaign address expressed the hope that the Nebraska capital would give Mr. Dawes a cordial welcome and declared

he hoped he would have an opportunity to meet the city's visitor. Mr. Dawes read the statement and then announced he would call on Governor Bryan before returning to Evanston.

The Republican nominee puffed his pipe as the two talked in Governor Bryan's office and the Democratic nominee in equally characteristic manner put on and took off his black slouch hat and rubbed his bald head.

Ten minutes or more passed and then Governor Bryan rose, walked to the door and announced to photographers waiting in the outer office.

"The General and I have no objections to your taking our pictures as old friends."

Cameras were brought in, a strong light apparatus arranged, the furniture moved about, and the two candidates seated themselves side by side in front of the governor's desk while a picture, such as has been taken in few national campaigns, was snapped.

Mr. Bryan had laid his black hat on the desk, and Mr. Dawes had put his pipe in his pocket.

The photographers having completed their work, the two shook hands warmly and smilingly parted as old friends, each having forgotten for the time that they were political opponents.

When the prince stepped from his special train at 1:15 this afternoon, a crowd, composed largely of women, had already been straining the ropes of the barriers erected to keep them in check for nearly three hours.

Not even the suffocating August heat had been able to dissuade them from their purpose, that of seeing the prince. As the prince, with Secretary Hughes by his side, walked down the station platform and thru the president's room to reach a white house automobile the crowds gave way to their pent up enthusiasm, forgot both fatigue and heat and with much waving of handkerchiefs and hats, shouted their welcome.

Before leaving, the prince wishing to express to the Washington people his appreciation for the warmth with which he had been received, addressed to them a message as follows:

"To have the chance of paying my respects to the chief executive of the United States has been eagerly anticipated by me, but I did not expect that affectionate reception which the citizens themselves have afforded me. My present visit to this country is purely a holiday one, but the charm of it is enhanced by the manner in which it is being received in all quarters. I thank you all very much."

Immediately after the reception of the cabinet members, the prince, accompanied by Secretary Hughes, drove directly to the station where his special train awaited him. His departure was about 30 minutes earlier than had been expected and as a result only moderate demonstrations occurred.

Mr. Franks, when questioned about the transaction tonight refused to comment, saying he had been requested "not to talk."

"By the other side?" he was asked.

"I cannot say," was his reply. After the murder of his son, Mr. Franks declared he wanted vengeance on the two slayers, Leob and Nathan Leopold, Jr., whose fate is now before Judge John R. Caverly of the Criminal Court.

It has been known for some time that Mr. Franks desired to sell his home because of the associations it held for him and his family. It is located at 5052 Ellis Avenue in an exclusive section of the South Side.

The Franks family, it was understood is planning to take up residence at a North Side hotel during the winter.

## PRINCE VISITS WITH COOLIDGE FOR SHORT TIME

**Crowds, Mostly Women,  
Gather to Give  
Him Big Welcome**

WASHINGTON, Aug. 30. (AP)—The Prince of Wales was given an enthusiastic popular reception upon his arrival in Washington today to pay an official visit to the white house.

The prince's own wishes and those of President Coolidge that the visit should be entirely informal did not convince the public that a rousing reception would be distasteful to the distinguished guest and the crowds gathered at the station and jammed along the entire route to the white house gave the prince an ovation.

His visit at the white house, where the chief executive and his family are in mourning, on the other hand, was quiet and simple in the extreme. A luncheon was served by the prince and the Coolidge family was followed by a reception to members of the cabinet and their wives, and then the visitor returned to the station and left for Long Island. His stay in Washington was barely more than two hours.

When the prince stepped from his special train at 1:15 this afternoon, a crowd, composed largely of women, had already been straining the ropes of the barriers erected to keep them in check for nearly three hours.

Not even the suffocating August heat had been able to dissuade them from their purpose, that of seeing the prince. ## LABOR PARTY IS DEBS PREDICTION

NEW YORK, Aug. 30. (AP)—Out of the present third party movement will grow an American Labor Party, according to Eugene V. Debs, Socialist leader and many times that party's candidate for president.

In a Labor Day proclamation issued by Mr. Debs, and made public today at the Socialist headquarters he voiced:

"Following the campaign, we shall stand prepared to do our share to organize and make permanent the American Labor party to which the temporary movement is pledged," he said.

"We do not expect the party to be organized by political candidates but by the workers themselves and we are persuaded that the time has come when they are equal to the formidable task. In this new party of labor and the socialist party will have to take its place, but it will remain and function as the Socialist party and in relation to the masses of the workers it will have ten fold the influence and power for revolutionary propaganda it ever had before."

Franklin County has novel speed signs. Benton, Illinois.—Motorists in Franklin county are to have little excuse for evading the speed laws county road officials say. Novel and pertinent signs are being placed on the outskirts of each town in the county.

"This is a good road, it will cost you money if you burn it up," or "Slow down, look before you weep," or "Don't speed; it is good morning, Judge," here as hereafter," are the warnings appearing on some of the signs.

## DAWES PLAN GOES INTO EFFECT AND WORK IS STARTED

**Owen D. Young Appointed Agent-General  
and Immediately Starts His Assistant to  
Berlin to Open up His Office—Evacuation  
of Dortmund Has Been Ordered by French**

PARIS, August 30. (AP)—The Dawes plan really became operative at noon today with the formal appointment of Owen D. Young as agent-general, altho technically and legally the allies' latest attempt to get reparations from Germany will date from Monday, September 1, when the reparation commission will announce that Germany has passed the required laws and that the Germans and allies have signed the agreement of London.

Mr. Young got into action immediately and started his assistant Leon Frazier, to Berlin, giving him 48 hours in which which to get to the German capital and open his office.

The evacuation of Dortmund and the surrounding area has been ordered by the French government in conformity with Premier Herriot's promise to the German chancellor, but the actual departure of the soldiers will wait on the civil services, which have been long installed, and it may take two or three weeks to turn over their affairs to the Germans, where necessary, and shut up shop as far as concerns Franco-Belgium control of the mines and factories and general supervision of civil affairs.

The cessation of economic control of the Ruhr and the delivery of the complicated railway system to the Germans will take several weeks. The London agreement contemplated that the first step should be taken August 15 and specified he does, on which each stage must be completed but authorized that reparation commission to hasten or delay the dates according to circumstances. September 1 will be the first date and eight days later the French and Belgians must cease collecting customs occupied and unoccupied Germany. Twelve days afterward, or by September 21, the French and Belgians must have removed the restrictions on all traffic between the occupied and unoccupied regions, and they must restore various charges on the population and regulations as they exist in Germany proper.

The Rhine-Ruhr railroad however, will continue to apply its present tariff, as the profits from it go from the reparation fund administered by Mr. Young. The plan gives five weeks for the completion of all preliminary arrangements such as forming an organization for creating a bank of issue, organizing a new railroad company, depositing railroad and industrial securities with the Dawes plan officials, and the negotiation of a contract assuring an eight hundred million mark loan. The French and Belgians, within two weeks thereafter, or by October 20, must restore the economic and fiscal unity of Germany to the satisfaction of the reparation commission.

The actual collection of reparations will begin immediately, the Germans paying 20,000,000 marks Monday, and the Franco-Belgians turning over their collections ten days later to Mr. Young.

Germany must make up any deficiency in collections, so that the agent-general each month will receive one twelfth of the annual reparation payment to the allies.

Agent-General Young and the other officials appointed by the reparation commission, M. Delacroix of Belgium, Signor Nogara of Italy, and Andrew MacFadyen of England, will go to Berlin Wednesday ready to begin operations.

## MONTANA JUSTICE SURRENDERS OFFICE

HELENA, Mont., Aug. 30. (AP)—Associate Justice Charles H. Cooper, of the Montana supreme court and Attorney Wellington C. Rankin, resigned late this afternoon. Governor Joseph M. Dixon, immediately accepted the resignations and appointed Mr. Rankin as associate justice to fill the unexpired term of Justice Cooper.

Governor Dixon then appointed L. A. Foot of Choteau, assistant attorney general as attorney general to fill the unexpired term of Mr. Rankin.

Justice Cooper in a statement to the Associated Press said he resigned because of the fact he was recently appointed executor to a large estate, consisting of property in three states to which work he felt compelled to devote more time than his court duties would permit.

Southern Illinois preaches ships many peaches. Cobden, Illinois.—Ninety-seven cars of peaches were loaded in a single day at the Cobden shipping station during the peach-shipping season, according to the local shipping agency. The day's load stands as a shipping record in the southern part of the state, they say.

Anna, Ill., loaded and shipped 40 cars of peaches on the same day, Illinois Central reports show.

## THIRD PLANE TO JOIN AVIATORS AT PICTOU N. S.

**Lieuts. Wade And  
Ogden Await Com-  
panions' Arrival**

PICTOU, Nova Scotia, Aug. 30. (AP)—Lieutenants Leigh Wade and Henry H. Ogden, the Americans fliers awaiting here the arrival of their round-the-world companions, rested this morning after voyaging by the destroyer Barry from Iceland. This afternoon they worked on their new plane Poston II, looking over the motor and testing the machine thoroughly in preparation for their journey toward Boston. A trial spin in the new plane which had been planned for today will not be held until a new propeller is installed.

While there has been some talk of Lieutenants Smith and Nelson now in Greenland, making a one-day flight from Indian Harbor, Labrador, to Pictou with only a brief stop at Hawkes Bay it will depend entirely on weather conditions and the American airmen here think the flight will be carried thru in two stages, as originally planned. They also expect the journey to Boston from Pictou to be made in one jump without a stop at the emergency station at St. John, N. B., unless necessitated by the condition of the machines.

## GASOLINE EXPLOSION VICTIMS NOW NUMBER SIX MEN, THREE BOYS

**Three in Hospital Seriously  
Burned—Eight Slightly Hurt**

PITTSBURGH, Aug. 30. (AP)—Mounting rapidly thru the night, the death toll, resulting from an explosion of gasoline yesterday in the garage of the Peoples Natural Gas company, stood at nine today. Three small boys and six men are dead. Three persons are in hospitals probably fatally burned and eight others are suffering from lesser burns and injuries. Harry Jessup, truck driver who died at 4 o'clock this morning was the ninth victim.

Fire, breaking out after the explosion of a 1,500 gallon tank of gasoline as it was being poured into an underground receptacle, swept thru the plant destroying four automobiles in the garage and six others on the street beside the building.

Three boys between the ages of six and eight years, Louis Messina, Robert McFalls and James Montgomery, playing near the building were enveloped in a sheet of flame which burst from the doorway and windows. The other victims, helpers in the building, were burned as the flames swept thru the structure.

Mrs. A. V. Montgomery, attracted to the scene, rescued one of the boys as he was attempting to beat out the flames from his clothing. She extinguished the flames and carried him into her home nearby where he recognized him as her son. She collapsed.

## BURI

**Life of the famous feats of the Gorman submarines during the war was the sinking of the liner Laurentie, in 1917, at the mouth of Lough Swilly, off the North Irish coast, in 90 feet of water. It has become the most famous feat of salvaging.**

That liner contained about \$35,000,000 in gold and silver bullion, consigned to American bankers. In former times the treasure would have been given up as lost. But the same ingenuity and daring which enabled the Germans to wreak such havoc at sea enabled their victims to recoup much of the loss.

Immediately after the armistice, work started to recover the Laurentie treasure. Millions after millions was brought to the sur-

face, under as hard conditions as a diver ever faced. Now, by a lucky chance, the divers have recovered the last cache of gold bars, amounting to \$1,250,000. The great job has been completed with no mishap more serious than the breaking of one diver's leg.

The treasure already recovered in this way since the war runs into hundreds of millions. There is plenty more to search for. Far more gold is buried at sea than on land and deep-sea diving holds richer possibilities today than did successful piracy in the days when galleons weighed with gold sailed the Spanish Main.

## THE VOICE OF THE PEOPLE

The above is an expression very much used and much abused in democracies such as ours. It is a serious question whether the voice of the whole people has ever been heard on any public question. We learn from statistics that less than half the voting population in the country expressed its preference by ballot in 1920, and the vote at many state and local elections is even lower. After all, the responsibility for government rests on the shoulders of a very few, when compared to the vast population of the nation.

The remedy lies in an honest effort to provide intelligent leadership of the ordinary voter and to educate him into a civic consciousness that will compel him to go to the polls. The movements now on foot in the various lunch-club and other civic organizations to get out the vote are worthy of hearty support. As a rule, such work is left to partisan bodies, and they make it a point to bring out only those voters who will support their own causes. A purely non-partisan effort to induce citizens to use their franchise because it is their duty to do so, is much needed in the entire nation.

## WHAT NEWS PLEASES READING PUBLIC MOST?

Criticism of the various classes of news appearing in a daily newspaper are numerous, and by the time all are in, it is sometimes a wonder among newspaper editors just what class of news will suit the majority of readers best.

It should be remembered that tastes vary in the matter of news, the same as along any other line, and as a paper must be made as near as possible so as to please its readers, about the only thing that can be done is to try to give those of different tastes their share in the daily paper.

But at that, remarks such as the following are quite often heard: "Why run crimes and scandal in the paper, when literary, religious, or other uplifting articles would be far better for the reading public?" "What do I care what the Highbrows are

## DEATH OF LAUGH PREDICTED

BY ALBERT APPLE

A dreary future, in which no one will ever laugh, is predicted by Dr. Charles Gray Shaw, who teaches philosophy at New York University. Many signboards point that way.

People certainly do not laugh as much as they used to. Comedians in recent years have been complaining that audiences are becoming more solemn, with the "Dare you to make me smile," attitude.

This is due partly to the war, which took most of the joy out of life and shocked people into a serious attitude. But, even more, it's a result of publicity. In former generations, jokes, traveled slowly, were carried about by theatrical troupers and drummers. Today the new joke on Broadway is carried by newspapers, vaudeville and radio all over the country, and quickly.

Naturally, with such fast circulation, the life of a joke is shorter.

Then, too, humor has become a scientific business. Hundreds of clever comic artists and column conductors are on the alert for new "gags." The old ones have been classified, reshaped, disguised, served time and again. Every one knows them—except the rising generation.

But scientific distribution of available humor is not what Shaw has in mind when he predicts a future without laughs. A Primitive man, he says, didn't know enough to laugh, since wit involves a certain amount of intelligence.

"The men of the future will know too much to laugh at anything. We laugh at what we do not understand, or at what seems inferior to us. In both cases, our pride induces us to assume an exalted position and haughty air. Men used to laugh at Columbus and Galileo. Now they try to joke about Einstein and Freud."

"On the social side we are prone to laugh at people who appear inferior or who are forced to assume degrading positions. The prince laughs at the pauper. The city person sneers at the rustic. The native citizen smiles at the immigrant. But these are only the signs of incongruities and inequalities which the future will remove."

Laughter, as Shaw views it, is a characteristic of man in his present stage of mental development. When men become more intelligent, he expects, they'll laugh less. How often do you see a scientist or highbrow laugh?

However, if the future has nothing in its existence to grin about, it can always look back and laugh at us.

**Queer**

To win bets, there is no limit to man's foolishness. A Dutchman passes through Paris, traveling 15,000 kilometers by turning somersaults. He started last November and expects to finish the trip early next year.

Why ever consider life dull when there is plenty of World Vaudeville like this? Half the world are spairrels!

**Travelers**

On a tour of the world, started in 1919, Mr. and Mrs. Frank M. Richards of Los Angeles have already covered over 216,000 miles. Five more years of travel ahead.

So far they've used the auto for nearly 200,000 miles, which is a revelation in Good Roads. A century from now, trips of this length by airplane will be common. Nearly all of us miss a lot by being able to see only a small part of this world before we pass on to the next. Civilization at present has us in what amounts to penitentiary cells. Airplane will unlock the doors, 100 times more so than the auto.

**Brilliant**

Dyes, injected into North Carolina trees at the roots, are drawn up and saturate the whole tree. In 10 days, the tree is cut down—and the lumber is embalmed with permanent colors that cannot even be boiled or steamed out.

It's a clever idea, and it will help the imitators of mahogany and other expensive furniture. Some one will make a lot of money out of the process. There are millions of such opportunities waiting for the eyes that can see them.

**China**

In Chinese movies, instead of passing ice water, patrons are handed steaming hot towels by ushers, for wiping faces and hands. An interpreter, standing near the screen, explains the captions and situation in Chinese. Returned travelers say the Chinks like comics and action pictures, especially Wild West. They are bored by love scenes, triangle plots, sex entanglements.

As we come increasingly into economic contact with the orient we'll observe that the yellow race has about as much emotion as a pail of putty. China is an old man, American a youth.

Samuel Seals returned Wednesday to his home in Kansas City, after a visit of several days with relatives here.

Mr. and Mrs. Frank Mulch of Mt. Vernon are visiting at the home of the former's sister, Mrs. Mary Cook.

Miss Lucille Rodgers returned from a visit with relatives in Granite City.

Mr. and Mrs. John Rodgers went to Chicago for a visit with their daughter, Miss Corinne Rodgers.

Mrs. Lloyd Ashbaugh and children returned from Sysate, Wyoming where they spent the summer with Mr. Ashbaugh who is employed there.

## HERMAN TO RE-ENTER BUSINESS ON SQUARE

Will Sell Women's Clothing and Millinery in Building Vacated by Elliott Bank.

J. Herman, long known here as a retail dealer in women's ready to wear clothing and millinery, is planning to re-enter business along similar lines in a new location. He has leased the building on the east side of the square recently vacated by the Elliott State Bank, and expects to occupy this location as soon as the necessary alterations can be made. The remodeling of the building is to take about three weeks.

The new house will be known as "J. Herman Company" and will start with an entirely new stock of the latest styles in women's ready to wear clothing and millinery. Mr. Herman said yesterday that he hopes the new store to be open for business sometime between September 15 and October 1.

For many years Mr. Herman and Mrs. Herman who has been associated with him, have had the confidence and good will of the public and their many friends will be glad to know that they are to again be in business here.

## WHITE HALL CITIZENS SEEK SWIMMING POOL

White Hall, Aug. 30.—Considerable pressure in the way of public sentiment is being brought upon Acting Mayor L. R. Winn to secure consideration of a municipal swimming pool, the increasing need and demand for which is obvious. It is pointed out that the city can finance the proposition and then obtain sufficient returns at so much per cent to reimburse the city for quite an extensive investment that should embrace both swimming and skating.

The popular Lyons restaurant on Sherman street took a sudden change of ownership Friday, when George Dyer, a former restaurant owner, walked up to the Lyons brothers, Harry and Charles, and asked their price for the place. They were confronted with a certified check to close the deal then and there, necessitating the popular brothers to get out with what money was on hand, after successfully conducting the business for 14 months and 3 days. The deal was so hastily consummated that the Lyons boys have not fully regained their equilibrium sufficient to give out plans for the future further than to say that with the increase in the junk business of their brother William, they will be engaged with William indefinitely. Harry Lyons leaves Sunday for Champaign as a delegate from the local American Legion post to the state campment of that organization.

Mr. and Mrs. C. A. Bartherse and daughter, Miss Eunice, of Denver, have been this week's guests at the Kendall home on West Bridgeport street. They have been touring the east. Mrs. Bartherse is a daughter of Mrs. Marjilla Barney of Denver, whose maiden name was Kendall, member of this well known White Hall family.

Stanley Gilbert and family have departed on their return to Arkansas City, Kansas, where he is superintendent of mails in a postoffice of the first class. He is a native of White Hall, and was a guest of the Limlings, and found that the chautauqua season is the proper time to meet friends of former days.

Telegraphic advice from Westaco, Texas, Thursday, state that Mrs. Fred Rives had died there Wednesday night. The family resided at White Hall prior to going to Texas, where Mr. Rives represented local interest in land affairs. Mrs. Rives was about 33 years of age, and was the mother of two children. Her maiden name was Mary Taylor, and had always made her home with Mrs. Minnie Griswold prior to her marriage about ten years ago. The burial will be at Westaco.

## ADVISORY DIRECTORS FOR 1925 CHAUTAUQUA

H. J. Rodgers, Felix E. Farrell, C. A. Johnson and J. H. Dial have been appointed as advisory members of the board of directors of the Jacksonville chautauqua for 1925. The appointment of these additional directors was occasioned by the fact that next year's chautauqua is to be a Centennial affair, in celebration of the one hundredth anniversary of the city's birth.

Representatives of the Coit-Alber and Redpath agencies will be in Jacksonville tomorrow to confer with the directors as to talent for the 1925 chautauqua, for which nearly 2,000 season tickets have already been subscribed.

## AT OAK LAWN

The following visitors called at Oak Lawn Sanatorium yesterday: Mrs. Robert Etter of Waverly, Mrs. Hallie Magill of Westhill and Mrs. Farmer of Clayton, Ill. Mrs. Frank Johnson of Alexander donated some Victrola records; Mrs. Hendy Welborne some cakes and Mrs. Williams of South Main street some books which were appreciated very much.

## FUNERAL NOTICE

The funeral of Frank I. Reimann will be held at noon Sunday from the residence at 123 City Place, in charge of the Rev. Harry H. Lewis. Burial will be made at Meredosia, in charge of the Rev. Wetzel.

## A Whittling Day

After all one century seems not to differ so greatly one from another in its needs. In the recent lecture by Prof. William Mather Lewis, president of the George Washington university of Washington, D. C., he mentioned the advisability of following the suggestion some one made for another holiday to be known as "Whittling Day," which one celebrated by whittling and thinking. The great world teacher sensed such a need in his day, evidently and celebrated it, for we read "he went up into a mountain apart, to pray," many times.

## A Wonder

It's a wonder a man ever has a rim to his hat, the constant rubbing he gives it when holding it in his hands.

## The County Fair

The harvest time is here again. And nearly every county in the state, gathers together the choicest of the flock, the best of the herd, the finest fruit, the best grain, the swiftest of foot among the horses and ponies, the heavy-weight draft horse, the greatest producers among the cows, the trimmest and best of the mule family. The women bring the finished product for comparison with their neighbors.

There are shining rows of jelly and preserves, and all fruits and vegetables in canned array; there are loaves of bread and gingerbread, cookies and the finest cakes that the world ever saw are assembled at the county fair, and none exceeding those at our own county fair. There's outter and honey and fresh fruits and vegetables.

Yet with all the display from the dairy and swine, the horse, mule and sheep yards, the earth products too, and the best that can come from the kitchen, has not prevented the great display of the needle in the deft fingers of women. Beautiful, artistic creations of art and beauty. What is more to a community than a county fair? Inspiring others of achievement, urging us all to try to excel ourselves.

A place for the children and a place for the adult, and besides the pleasant spirit of lively competition, we may meet in neighborhood discourse not only those of adjoining farms, but all over the county.

Those persons desiring to make their choice from a larger selection, should be satisfied with this fall's presidential timber from which he may choose. From present indications there will be quite a forest. "Hew where ye please."

## A Valuable Distribution

Many condemn men of great wealth. But Andrew Carnegie should have the love of all thinking people. Had Carnegie given his great fortune of many millions in equal gifts, to people indiscriminately, the share to each would have been infinitesimal, yet thru his library scheme of giving, he value is incommensurable.

Thru the library one is helped to help himself, which is far better than being the recipient of a gift, regardless of its monetary consideration.

## Behind the Veil

What seekers after wealth, as the world calls it we are. Here is a new Diamond Rush, on the banks of the Nile River in Africa, and over 13,000 have entered seeking the stone. Experienced diggers, also students, clerks and even girls are in the race.

What hardships we are so willing to endure for that which fades and which will not flash even to the sky, let alone to heaven, and how we complain of the tiniest scratch in pursuit of those gems, whose "serene rays gleam thru eternity, the gems of truth, purity, the beauty of holiness. Treasures laid in heaven where neither moth nor rust doth corrupt and where thieves cannot break thru and steal. Are not these gems worth wading thru hardships, uncomplainingly, joyfully for? No wonder Jesus so often repeated, "Rejoice!"

No, my dear, that tablet recently unveiled to honor Marie Beyler, was not in honor of another woman. Marie is not Marie. Marie is Marie Henri Beyle, a man-writer (French) of fame, author of "Promenades dans Rome," prophetic of many recent historical happenings. Marie is better known as Stendhal. Though a Frenchman, he was a great lover of Italy, and the tablet unveiled at Civitavecchia, near Rome, was a joint occasion between Italians and the French. Many European dignitaries attended the unveiling.

Abolishment of capital punishment would save much controversy and promote the spirit of right. According to favorite ethical teachings no one needs so much to live as the man we claim to be exceedingly bad. If there is no chance for reform after death, surely the bad man ought to be allowed to live, until natural death overtakes him.

## W. N. HAIRGROVE FROM WESTERN COAST

William N. Hairgrove greatly enjoyed his trip to San Francisco, from which he has just returned. Mr. Hairgrove went to the coast state as the guest of C. W. Piddock, president of the Georgia Northern railroad, who was one of the railroad executives in attendance at the convention of presidents of short line railroads. A special train in two sections carried the delegates and their friends to the convention. At its close Mr. Hairgrove visited a number of cities in coast states, the return trip being made by the Northern Pacific railroad.

While in Chicago Mr. Hairgrove had the pleasure of having Clarence Darrow as his luncheon guest, the two having been on terms of friendship thru a period of years.

A Rollicking Picture with a Thrill a Minute

—Monday and Tuesday—

Riding Wild to win the girl of his heart, the world's greatest out-of-door actor now appears in his Fiftieth triumphal picture. As with each, this is different and the best yet. Don't miss—

TOM MIX With Tony the Wonder Horse  
—In—  
"The Heart Buster"

There is a thrill in every foot of the entire film which centers around a scheming foreign crook winning the girl with whom Mix, as a young ranchman is deeply in love. When the girl announces her intention of marrying the foreigner Tom leaves her in a cogitating mood. He cannot banish the picture of the successful lover from his brain with the result that he recalls him in another part which was nowise honorable.

He rushes to tell the girl of his discovery but his unsupported charges only cause the girl to announce more firmly her intention of marrying the man.

With the job of substantiating the charges on his hands Tom flies into action. He stops at nothing and finally lands in jail as the result of kidnapping the Justice of Peace and Minister in an attempt to delay the wedding ceremony. With the aid of Tony, his wonder horse, he makes a dramatic, but apparently funny escape from the bastille. In the meantime the foreign crook is about to lead the girl up the steps of the altar when Tom suddenly breaks in with the damning evidence.

## CANDIDATE DECLARES KLAN DENUNCIATION ONLY BID FOR VOTES

**Gilbert O. Nations Says Old  
Parties Want Catholic  
Support**

CONNELLSVILLE, Pa., Aug. 30. (AP)—Recent denunciation of the Knights of the Ku Klux Klan by Senator LaFollette, John W. Davis and Charles G. Dawes "is neither more or less than a sinister and deceptive bid for the political support of the Roman Catholic hierarchy and its following in this country," it was declared tonight by Gilbert O. Nations, American party candidate for the presidency in an address before a large gathering of klansmen on Limestone Hill here.

"The cringing and elusive denunciation of that organization in the platforms of the Republican and Democratic parties was equally selfish, deceptive and insincere," continued Mr. Nations. "In the national conventions of those parties the discussion of the Klan issue before the resolutions committee turned solely on the questions of whether the organization should be denounced specifically and by name or only in glittering generalities."

Mr. Nations in his address outlined the principles of the American party declaring it stood for strict enforcement of the prohibition amendment and charged both the Republicans and Democrats with evading the issue in their platforms. A department of education in the president's cabinet also urged by the speaker who declared the only opposition to such a measure introduced nearly six years ago in both houses of congress was "the Roman Catholic hierarchy and its political following."

## MRS. SHAVER ENDORSES NATIONAL DEFENSE DAY

Fairmont, W. Va., Aug. 30. (AP)—In a letter which she declares "is not intended to be a political article, but a patriotic endorsement of national defense day" Mrs. Clem L. Shaver, wife of the chairman of the Democratic national committee, condemns the pacifist movement and says "the best way to prepare for peace is to show the world that we are ready for any emergency."

At one point in her lengthy letter which was addressed today to the Fairmont West Virginian, Mrs. Shaver refers to Charles W. Bryan, Democratic vice-presidential candidate as "a well known pacifist" and asks why "Mr. Bryan continues to pick at and harp upon the coming observance of national defense day, insisting upon designating it a 'militaristic program.'"

## NO DETOUR NOW ON ROAD WEST OF RIVER

At 5 o'clock yesterday afternoon the last concrete was laid in the stretch of hard road between Murrayville and Manchester. W. E. Sullivan, a member of the hard road committee of the Chamber of Commerce was on the ground and saw the piece of road completed. The construction gang will now move to Woodson and begin work north and south out of that community.

Mr. Sullivan also received a telegram yesterday from the state highway department, stating that, for the convenience of travelers, the quarter of mile of road laid eight days ago west of the Illinois river at Florence has been opened to pleasure and passenger traffic only. This has been done in order to do away with a most troublesome detour west of the river, and it is a favor of the state department which will be heartily appreciated by travellers going west from this city.

## RETURN OF TROOPS BRINGS QUIETNESS IN HERRIN RIOTS

(Continued from Page One)  
said tonight to be in a dying condition.

Sheriff Galligan denied the report tonight that he had been hospitalized in the local hospital where the wounded were first taken. He asserted he had merely gone to the institution, accompanied by his deputies to safeguard the wounded and that he had remained there only long enough to see that they were safely removed from the hospital.

The sheriff left for Marion, the county seat, late this evening taking with him Carl Shelton who was wounded and Suprell Westcliffe, both of whom are being held for investigation.

**BY THE SEA**  
I sometimes go down for a day by the sea,  
The foam-crested, blue-breasted, billowy sea  
That kisses the shore with its silvery lips,  
That cradles the in-coming, out-going ships,—  
The sea that is always a wonder to me,  
The beautiful murmuring sea.

I've watched the rose light of the dawn on the sea,  
The dew-sprinkled, sun-crinkled, wave wrinkled sea,  
The dawn that blooms out like a flow' from the skies,  
Ablush from the gateways of fair Paradise.  
That glows like a radiant gem on the sea—  
The shimmering, glimmering sea.  
The surges at noon fall asleep on the sea,  
The dreaming and gleaming and langorous sea  
That shines like a mirror with ripples of gold,  
That dangles and sparkles with beauty untold—  
The sea that is ever untrammelled and free,  
The sun-glowing, swift flowing sea.

O what is so fair as a sunset at sea?  
The flame-glinted, mauve-tinted, amethyst sea?  
How great is the charm of its varying moods,  
Its wordless unrest, and its deep solitudes  
That whisper and croon like sweet music to me,  
The rhythmic, rapturous sea.  
How grand is the sight of the moonlight at sea!  
The silvery-sweet, inspirational sea,  
That speaks to each heart in its soft unknown,  
While tossing its billows exultant in glee—  
The lyrical, luminous sea.

I've sensed the fierce charm of the night by the sea,  
The storm-driven, rock-riven, treacherous sea,  
That moans o'er the graves hid in its breast,  
That carries dark secrets deep where its dead lie at rest,  
The sea that can tender or turbulent be—  
The masterful, merciless sea.  
Encompassed with glory God rides on the sea,  
The King of all kingdoms eternal is He!  
He ruleth the skies with invincible sway,  
The waves and the billows His mandate obey;  
His power they declare, and His great majesty—  
As sovereign and Lord of the sea!

And so I go down for a day by the sea,  
The deep-chested, broad-breasted glorious sea,  
My soul thrilled anew in this magical hour,  
Beholding God's wisdom and splendor and power,  
Whose kingdom embraces the land and the sea—  
The wonderful, wonderful sea!  
—Ida Scott Taylor.

### IS ELECTED TO STATE OFFICE

Mrs. Alice Charlton of Madison, Ill. stopped over from Friday until Sunday with her parents, Mr. and Mrs. W. A. Johnson of West Morton avenue. Mrs. Charlton has been attending the sessions of the Illinois Federation of C. W. clubs in Peoria since Tuesday evening, the final session being held Friday. Mrs. Charlton was elected fraternal secretary of the state, a fact which is pleasing to her many local friends.

## Menus for a Family

Breakfast—Baked apples, roll-oats, top milk or cream, crisp whole wheat toast, poached eggs, coffee, milk or cocoa.

Luncheon—Cream of pea soup, graham bread and butter sandwiches, peach tapioca pudding with cream.

Dinner—Broiled porterhouse or sirloin steak, boiled potato, wax beans in cream, shredded cabbage, baked pears, plain cup cakes, milk and tea.

Every child needs a substantial breakfast, but the foods must be easily digested. While cream is desirable for its butterfat and vitamins, many children fail to assimilate cream and thrive on rich milk with cereals rather than the heavier cream. Use little or no sugar over cereals. Drying cooking brings out the natural sweetness of grain products.

The noon meal is perhaps the most difficult to plan. Salads and elaborate sandwiches that mean so much to grownups are not for youngsters. But a cream soup is liked by everybody and ideal for children. When school begins, the necessity for a nourishing but light luncheon increases. Growing brains and bodies need plenty

of tissue-building material to grow on, but the food must be quickly assimilated.

The younger children should not eat meat for dinner. The clear "platter" gravy should be poured over whole wheat bread for their dinner protein.

Even if a child has all of his teeth he seldom masticates his food sufficiently, so keep in mind the necessity of finely chopping vegetables.

Green, fresh vegetables are valuable food for children and as soon as they can be trusted to "chew" they should eat these foods.

**Peach Tapioca**  
One cup tapioca, 3-4 cup sugar, 2 tablespoons butter, 1-2 teaspoon salt, 8 large ripe peaches.

Pare and cut peaches in half. Arrange in a buttered baking dish, cut side up. Sprinkle with sugar and dot with bits of butter. Soak tapioca one hour in cold water to cover. Drain and add to three cups of boiling water. Cook in a double boiler until transparent. Season with salt and pour over peaches in baking dish. Bake thirty to forty minutes in a moderate oven. Serve with sugar and cream when cool.

## FUNERALS

**Woods**  
Funeral services for Sam Woods were held at 2:30 o'clock yesterday afternoon from the residence of E. G. Dewees, northwest of the city, in charge of Rev. M. L. Pontius. Music was furnished by Miss Ella Blackburn, Mrs. Edgar Martin, C. A. Rowe and C. L. Mathis.

Those caring for the floral tributes were Mrs. Clyde Cooper, Mrs. Otis Mason, Mrs. Paul Reid, and the Misses Martha Patterson and Barbara Hart. The bearers were Ernest Walters, Clyde Cooper, Paul Reid, Charles Morris, Everett Patterson and Otis Mason. Interment took place in Diamond Grove cemetery.

Members of Urania Lodge No. 243, I. O. O. F., had charge at the grave. Leon Stewart performed the duties of Noble Grand, and R. L. Dumas served as chaplain.

## CLUBS

The Woman's Foreign missionary society of Grace Church will meet next Wednesday afternoon at three o'clock. This is the meeting for election of officers. Mrs. Rawlings will lead devotionals.

There will be a called meeting of the Ladies' Aid society of Centenary Church in the church parlors next Tuesday afternoon at 2:30.

The Jacksonville circle of the Order of Bookfellows will meet at the public library Tuesday evening at 7 o'clock. A brief literary program will be given, followed by the election of officers for the year and discussion of final plans for the public lecture to be given at the library next Sunday afternoon at 2:30.

## WOODSON NEWS

Mrs. Fred Quimby spent Friday in St. Louis and while there had the pleasure of a visit with Miss Gertrude Porterfield of Barnesville, O. Miss Porterfield will be remembered as the singing evangelist at a meeting held at the Woodson Christian church the first of the year. She was enroute home from Ranger, Tex., where she has been visiting friends.

Dr. and Mrs. H. M. Grandle of Pittsburgh, Kans., and Mr. and Mrs. J. T. Self and family and Mr. and Mrs. Edward Gallagher of Woodson were dinner guests Saturday evening of Mr. and Mrs. C. Self at their apartments in Jacksonville.

The remains of the late James W. Craig, who passed away at the home of his son in Kansas City, arrived in Jacksonville Saturday. The funeral will be held Sunday afternoon from the Gillham Funeral Home.

**AN AGED ANIMAL**  
Capt. W. A. Kirby has a faithful servant in old "Prince" the horse he has driven thirty years. The captain says he bought the horse of Hart Massey thirty years ago when the animal was five years old and he is in good shape yet and evidently has several years of service in him. Of course the captain takes the best of care of his faithful servant and expects to have him some years yet as Mr. Massey said horses of that breed often lived to be fifty years old.

Miss Jennie Guinapa of Chapin was a shopper in the city yesterday.

William McCullough of Winchester made a business call in the city yesterday.

**A DAY WITH FIRPO**  
10 A. M.—Alarm clock shrieks violently. Firpo demands to know what all the shooting is about. "You said set the alarm for Thursday," explains a sparring partner. "Yes, but I said Thursday a week, you sap."

11 A. M.—Light breakfast consisting of 3 hams, 48 eggs, mess of lake trout and 14 stacks of buckwheats. "No milk this morning," Mrs. Jenkins, I'll try and tough it along on this."

12 M.—"Do you think this is a good day to run 20 miles?" Firpo asks trainer. "I do, good senior." "Well, go ahead and run 25, I'm not selfish."

1 P. M.—Crawls into porch hammock and facetiously announces intention to take beauty sleep. "Well, sleep a long time," advises village wise cracker.

2 P. M.—Call secretary and inquires if Cuban mail has arrived. Learns only mail is letter from young lady in Centralia, Mo., who writes, "Please send me one of your front teeth and a lock of your eyebrow. I think you are too romantic for words."

3 P. M.—Audience with newspaper men. Refuses to denounce the klan by name. Thinks prize fighters ought to be original even if presidential candidates aren't.

4 P. M.—Recreation period. Parlor tricks, pinchle, mah jongg, egg rolling, crotch golf, riding to the hounds and postoffice. (Isn't this the darndest stuff you ever read?)

5 P. M.—Poses for photographers. Obligingly stretches out full length on ground at request of a camera man who asks him to look natural.

6 P. M.—Responds reluctantly to dinner bell and partakes sparingly of (1) side of beef, (2) slabs of bacon, (14) pecks of turnips and (9) gallons of ice cream. "Never mind the finger bowl, Mrs. Jenkins, I'm in training, you know."

7 P. M.—Public reception. Visitors wishing to take sock at bull's chin form in line to the right. Children are asked to refrain from feeding the animal peanuts, tin cans and other forms of tasty debris.

P. M.—Bed time stories. "And little Red Riding Hood peeled off a case note and said shoot the works."

## THREE RED PITCHERS POUNDED BY PIRATES

PITTSBURGH, Aug. 30.—Finding little difficulty with the offerings of three Cincinnati pitchers Pittsburgh today swamped the Reds on their last appearance of the season here 12 to 3. After the Pirates had scored six runs off six hits in five innings, Rixey who started on the mound for the visitors gave way to Benton who lasted one inning. In the seventh Dibut began pitching for the Reds and the first six men to face him made five hits including two singles and a double, a triple and a home run. Cuyler hit for the circuit.

## Rogers Hornsby Bats 428, Ruth Hitting 391

CHICAGO, Aug. 30. (AP)—As the pennant aspiring Yankees swing into the final stretch of the pennant race, Babe Ruth, with his famous bat, today virtually has given up hope of eclipsing his record of 53 homers, which he had hoped to surpass before the finish of the 1924 season.

Ruth, however, finds solace in the fact that he appears almost certain of annexing the 1924 batting championship of the American League. The Bambino, although suffering a slight slump, leads by a wider margin than he had a week ago, for his nearest competitors for the premier honors have slipped even more dangerously than the Babe.

The averages, including games of Wednesday, reveal Ruth hitting .391, a decline of five points in a week. Jameson of Cleveland, running second, is batting .349, a three point gain, while Bib Falk of Chicago, dropped three points to .348 for third place. Ty Cobb is sharing fourth place with Boone of Boston, each with an average of .347.

After going almost two weeks without sailing the fences, Ruth managed to negotiate two homers, bringing his record to 40. The Babe's admirers figure that it is next to impossible for him to connect with 29 in the declining weeks of the season which would be necessary for him to surpass his record.

Eddie Collins, the Chicago veteran, is showing no inclination of slowing up in base stealing. His record of 34 remains the high mark. Other leading batters: Collins, Chicago, .335; Shelly, .335; Speaker, Cleveland, .333; Bassler, Detroit, .333; Archdeacon, Chicago, .333; Heilmann, Detroit, .329; Myatt, Cleveland, .328.

When President Heydler of the National League referred to Rogers Hornsby as the greatest batter in the major leagues, Hornsby's answer to that compliment was a batting rampage that brought his remarkable average up to .428. The St. Louis star, playing nine games during the week, went to bat 36 times and made 23 hits, six of them home runs. He also registered his one hundredth run for the season.

Hornsby's average is the result of 197 hits in 120 games. He has succeeded in stretching his hits for a total of 227 bases. He has made 22 home runs, 13 triples and 38 doubles. His only superior in home run hitting in the league is Jack Fournier of Brooklyn, who has connected with 25. Cuyler of Pittsburgh, who ranks next to Hornsby in batting, lost a few points during the week, dropping to .380. Wheat of Brooklyn is third with .367, and Young of New York fourth with .346.

Carey of the Pirates, the leading base stealer, is out in front with 34, followed by Cuyler with 25. Other leading batters: Fournier, Brooklyn, .344; Roush, Cincinnati, .343; Bressler, Cincinnati, .343; Kelley, New York, .329; Frisch, New York, .324; Blades, St. Louis, .324; Bottomley, St. Louis, .323; High, Brooklyn, .317.

## BEARDSTOWN HERE FOR GAME TODAY

Fryman on Mound for Locals — Lowder to Pitch Tomorrow's Contest Against Same Team.

This afternoon at South Side Park will occur undoubtedly one of the hardest fought games of the season between Beardstown, who have been consistent winners here so far, and the Indians who feel that the visitors have copped enough games at their expense.

Howard Fryman will be the pitching ace for the locals and Manager Smith has declared today as "Howard Fryman Day" so that his admirers may again see him in action in a Jacksonville uniform. Lowder will be held in reserve today in order to be ready to give the visitors a real argument when the two teams meet again tomorrow afternoon, Fryman being the reserve pitcher for the Indians in the second tilt. The Beardstown bunch are sweet ball players but we hope they lose both tilts; they have won enough already.

Here are the lineups for today as announced by the managers: Beardstown: Swan, lf; C. Baujan, ss; R. Baujan, cf; Stocker, 3b; Feamon, 2b; Peterson, rf; Jacobs, 1b; Pettit, c; Thornley, p; Wright, p; Whitehead, p. Indians: French, cf; Clark, c; Ruble, 2b; Boyd, ss; Wilson, 3b; Christopher, lf; Carter, 1b; DeFrates, rf; Fryman, p; Lowder, p. The game today will be played regardless of anything except a pouring rain, even though the contest has to be started as late as 4 o'clock. Manager Smith says the road leading past the park is now in excellent condition, but autos entering the grounds will be forced to enter at the south gate on account of a high bank left by graders at the north gate.

man, appears to be in danger of losing the batting leadership of the American Association, unless his hitting improves. Dressen of St. Paul and Earl Smith of Minneapolis threaten to supplant him from the position he has held almost since the start of the season.

Neun, falling into a slump, dropped off in percentage until his batting hit the .369 mark. Smith and Dressen are tied with .362, with Brief of Kansas City batting .356 for third place. Neun, however, is still safe in stolen base honors, with 45 to his credit, while Elmer Smith of Louisville, continues to lead in bagging homers. He has connected with 22. Reh Russell of Columbus is next in line with 19.

Other leading batters: Krueger, Indianapolis, .352; Brooks, Chicago, .348; Smith, Louisville, .347; Bell, Milwaukee, .346; Murphy, Columbus, .343; Russell, Columbus, .340; Krike, Minneapolis, .340; Christenbury Indianapolis, .339.

Western League  
Jack Lelievre, a one time batting hero of the major leagues, is challenging Lyman Lamb, slugging Tulsa outfielder, for premier honors of the Western League. Lelievre, manager of the Tulsa Oilers, is batting .386, just three points behind Lamb, while Miller of St. Joseph is trailing them in third place with an average of .375.

The sensational batting and scoring ability of the Tulsa player is outstanding. The club leads in batting with .325 and has passed the one thousand mark in scoring, having made two more than that number in 132 games. Three of its players—Lamb, Davis and Washburn—are among the leading home run hitters of the league. Davis tops the trio with 35, Washburn 34 and Lamb 17. Nick Cullop of Omaha, however, is the leading home run hitter, with 36.

Smith of Wichita and Skinner of Lincoln are tied for base stealing, with 45 apiece. Other leading batters: Washburn, Tulsa, .372; Dunning, Wichita, .368; Butler, Wichita, .365; Gingiardi, Denver, .360; Cullop, Omaha, .354; Davis, Tulsa, .353; O'Brien, Denver, .350; Osborne, Omaha, .346; Felber, Oklahoma City, .344.

Southern Association  
Batting honors of the Southern Association rest with Smith of Atlanta, leading with an average of .386, followed by Burrus, a teammate, with .365, and Carlisle of Memphis, in third place, .357. Niehaus of Chattanooga, with an average of .348 moved into fourth place, deposing Guyon of Little Rock, who is fifth with .346.

In base stealing, Stewart of Birmingham still leads with a string of 49, but Marriott of Mobile, who has stolen 42, refuses to be counted out of the race. J. Anderson of Chattanooga, leading in home run hitting, has a string of 23.

Other leading batters: D. Anderson, Chattanooga, .340; Paschal, Atlanta, .338; Hawks, Nashville, .337; Yaryan Memphis .337; Lapan, Little Rock, .333; Barber, Memphis, .332; R. Williams, Mobile, .332.

## PHILLIES WIN TWIN BILL FROM BRAVES

PHILADELPHIA, Aug. 30.—Philadelphia won four out of five in the series with the Boston Braves by taking both ends of today's double header 7 to 1 and 10 to 8.

The Braves were helpless against Ring in the first game. The second game was a slugfest with three pitchers seeing service for both teams. In the seventh inning Philadelphia hit Benton and relief pitcher Lucas for seven straight hits and a walk which scored seven runs before an out was made.

## GIANTS DROP TWO IN ROW TO DODGERS

BROOKLYN, Aug. 20.—Brooklyn made it two straight from New York today. McQuillan was knocked out of the box in the seventh when Brooklyn made five runs. Maun checked the rally but gave way to a pinch hitter in the eighth. The Dodgers got two more runs in the eighth off Huntzinger. The other Brooklyn tally was a homer by Doak in the third off McQuillan.

Twenty-three years ago, Clarke Griffith, as manager of the Chicago White Sox, won the American League pennant.

Griffith, in addition to managing the club, was one of its leading pitchers. The "Old Fox," as Griffith was known, didn't have the stuff of Walter Johnson but he was tough to beat.

That was back in 1901, the second year of the American League, his first as the pilot of a major league club.

Since then Griffith has managed a number of clubs in both major leagues, but has never been able to repeat his pennant debut.

Back in 1904, Griffith, then managing the New York Americans, fought it out until the last day of the schedule with the Boston Red Sox, only to be beaten.

A wild pitch by Jack Chesbro, then king of the spitball pitchers, decided the pennant. Working for Boston was Bill Dineen, now an umpire in the American League.

Four or five years ago Griffith gave up the active management of the Washington club to become its president. In 1912 he went to Washington as manager and had a big first year. His club faltered in the stretch after being a contender all the way.

Now, after 23 years of waiting, Griffith, weighted down with the title of president, has a chance to have his pennant appetite satisfied. The Washington club, under Manager Harris, is sure giving him a run for his money.

Dame fortune has been mighty fickle with her pennant smiles as far as Griffith is concerned. Coming down the home stretch, rather than smiles have been his sad portion. In the old pinch the tough breaks have always gone against him.

Twenty-three years is a long time to wait but Griffith will be content if the pennant breaks finally favor him. He feels that he is due.

Unlimited confidence in the ability of Manager "Bucky" Harris is Griffith's strongest talking point. He regards Harris as one of the smartest men in baseball. In the spring, when he surprised the baseball world by the selection of his youthful infielder as manager, President Griffith said:

"Harris is going to be a great manager. He will give Washington a club of which it may feel well proud. It will be an aggressive fighting aggregation. Harris is one of the smartest players in the game."

Harris has more than made good President Griffith's prophecy. It would be fitting if he could give Griffith a second pennant to enthrone over.

ST. LOUIS, Mo. Aug. 30.—Detroit pounded the offerings of Urban Shocker and defeated the St. Louis Americans by a score of 6 to 1 in the third game of the series here today. Manush, Hellmann and Bassler, led the attack on Shocker.

## SENATORS DROP CLOSE CONTEST TO YANKEES

Although Washington Gets Eleven Hits to New York's Five, Game Goes to Yankees by Score of 2 to 1—Ruth Gets Only One Single

NEW YORK, Aug. 30.—The world's champion Yankees won the third game of their series from Washington here today, Hoyt defeating Oden in a pitching duel by a score of 2 to 1. It was only the second game that New York has won from Washington at the stadium this season. New York's victory again reduced Washington's lead to a half game.

Bob Meusel, dropped to sixth place in New York's batting order because of a batting slump, drove in both of the Yankee runs.

In the fourth inning, Ruth was safe on Bluege's wild throw, the only Washington error of the three games. He reached third on two outs and scored on Meusel's single. Pipp opened the ninth with a single, took second on Schang's sacrifice and scored on Meusel's double.

Washington outhit New York two to one but could not bunch their hits on Hoyt, ten men being left on bases. Washington scored its lone run on singles by Rice and Goslin and an infield out in the sixth inning.

EPINARD FINISHES  
HIS TRAINING TODAY

NEW YORK, Aug. 30.—Epinaud, French champion entered in the first of International races at six furlongs at Belmont Park Monday, will finish his training tomorrow morning with a sharp half mile. Today's workout was confined by Trainer Eugene Leigh to a two mile canter.

American horses entered over the six furlong course on Monday have been stepping off practice distances in figures which equal Epinaud's mark of 1:42 1-5 made in his mile test Friday. Snob II was clocked in that time today. Wise Counsellor galloped a strong six furlongs in 1:16.

RANK OUTSIDER WINS  
HOPEFUL STAKES

SARATOGA SPRINGS, N. Y., Aug. 30.—Running a winner's race from start to finish, William Daniel's Master Charlie, paying 25 to 1, today captured the rich purse of the Saratoga season—the Hopeful Stakes, worth \$48,700.

Twenty-five two year olds faced the starter, with American Plug a 4 to 1 favorite. Master Charlie took the lead at the break. Single Foot chased after him and the two opened a gap of six lengths on the rest of the field. Pas Seul came in second, with Kentucky Cardinal third. The six furlongs was run in 1:13.

The Saratoga Cup, worth \$5,300 was won in a drive by Bud Fisher's Mr. Mutt.

The favorite, My Play, was half a length behind, followed 15 lengths farther in the rear by Aga Khan. The time was 3:00 4-5.

CZAR WORTHY WINNER  
OF FREE FOR ALL

READVILLE, Aug. 30. (AP)—Czar Worthy won the free for all trot, the closing day feature of the local Grand Circuit meeting today. The race was contested solely by the stables of Tommy Murphy and Walter Cox each having two entries.

The Murphy was behind Czar Worthy and Cox piloted his futuristic winner of last year, Ethelinda.

The Great Volo took part in the brushing only in the first heat in which he almost caught Czar Worthy in the stretch. Mrs. Yorkes, the second Murphy entry did not show much speed.

Tiger Lily, Lyman Bruises' mount won the only extra heat contest of the meeting in the 2:10 pace. Murphy drove Laughter to win the 2:13 class trot.

THREE AMERICANS  
REMAIN IN RACE

Tilden, Johnston and Richards to Battle Against Gerald Patterson for Tennis Championship.

FORREST HILLS, N. Y. Aug. 30.—America's tennis "big three"—William T. Tilden, William M. Johnston and Vincent Richards—and Gerald L. Patterson, captain of the Australian Davis cup forces will fight it out for the national men's singles championship. The Yankee triumvirate and the giant Australian demonstrated their superiority over the rest of the field today when they marched thru the fifth round with decisive victory. On Monday Tilden, sweeping toward a fifth straight crown plays his former pupil Vincent Richards, the Olympic court king, in the upper semi-final bracket.

Patterson, lone survivor of an original score of invaders from seven countries meets William M. Johnston, veteran former champion in the lower half match.

On the form they displayed today Tilden and Johnston appear the strongest of this quartet and, unless there is a last startling reversal to add to the tournament's already crowded list, the title match on Tuesday promises to witness a renewal of the duel between "Big Bill" and "Little Bill," chief rivals for the premier American crown since 1919.

Tilden, who he dropped a set, easily mastered Howard Kinzey of San Francisco, 6-2 6-4, 3-6 6-2, while Johnston in the most spectacular match of the afternoon conquered Rene LeCote, brilliant young French Davis cup star 6-3, 6-3, 6-3.

Richards was forced to call on his most sensational net attack to down Wallace F. Johnson, Philadelphia chop-stroke veteran 6-2, 6-4, 11-9, but Patterson quickly battered him way to victory over George M. Lott Jr. seven-year-old Chicago school boy sensation, 6-1, 6-4, 6-3.

MANY INTERESTED IN  
USEIT'S LITTLE SON

LEXINGTON, Ky. (AP)—A little mite of horseflesh, at his mother's side on E. R. Bradley's Idle Hour farm here, some day may attract the attention of lovers of the sport of kings. He is Black Gold's baby brother, son of Black Toney and the little Indian pony Useit.

Seldom has it happened that more than one member of a family has achieved greatness on the track, but there are exceptions. Three notable cases by the same father and mother were bred by "Bob" Anderson on his farm near Georgetown, Ky., some years ago. These were Dick Welles, Ort Welles and Dick Fennell, by King Eric from Teal's Over by Hanover. All were great racers and each sent to the track scores of winning equines.

It is not improbable, then, turmen say, that Black Gold's little brother some day will receive the plaudits which have greeted the older horse this year, and increase the purse of his owner, Mrs. R. M. Hoots, of Tulsa, Okla.

He is eligible for the Kentucky Derby in 1926. Foaled shortly after his brother won the Golden Jubilee Kentucky Derby, this little colt has already won praise from turfmen as a promising looking youngster.

SINGLE G. IMPROVES  
WITH PASSING YEARS

CAMBRIDGE CITY, Ind. (AP)—"Single G," 14-year-old veteran of the harness racing circuits, is improving with age, despite the general belief that a horse's best days are past when it reaches its tenth year. This remarkable animal, which eleven years ago made her maiden start over a mile course at Peoria, Illinois, and finished third in a race on the same day in which the world's record was shattered by "William" in another race, still is the talk of the harness racing fraternity. "William," in making his debut, established a record of 2:05. He and all other racing mates of "Single G" in that day have gone, but the great pacer is more active than ever.

"Single G" established a record of 1:58 1-2 in negotiating the mile in her tenth year of racing last season, and today, in her eleventh year in harness, she promises to do as well or better, according to followers of the circuit races.

According to racing authorities "Single G" has surpassed the record of all harness race horses of the two minute class or better, and they declare her now to be one of the greatest pacers in harness.

"Little Gyp," mare of no recognized breeding, was the dam of "Single G," while "Anderson Wilkes," rated as a good horse in his day and a leading son of "Onward," was her sire. Ed Allen, veteran driver, who has been the trainer of "Single G," is always in the seat when she stuns around the circuit. She is the property of W. B. Barefoot of Cambridge City, Indiana.

MICHIGAN FEARS ILLINOIS—Michigan's toughest opponent this fall, judging from present indications, will be Illinois. They meet at the dedication of the latter's new stadium Oct. 18. Michigan hasn't lost a game since the 14-0 Ohio State defeat in 1921.

Mrs. James Roach of Litterberry expects to move to Jacksonville soon to make her home. She has purchased a residence on Doolin avenue.

Yanks Land Slugger  
Atlanta Home-Run Artist Who Hits From Either  
Side of Plate Brings Owner's \$20,000

BEN PASCAL

Speaking of carrying beans to Boston and tires to Akron—The Yankees have bagged another home-run king.

His name is Ben Pascal and he has been starring in field and at bat for the Atlanta club of the Southern League all season.

Pascal hits from either side of the plate, and is the idol of Georgia's dark-town bleachers, who let loose shrill shouts of delight every time he fires a home run among them.

The Yanks paid \$20,000 for him. Not a whole lot of jack in baseball circles these days but enough to mention in passing.

## TENNIS TALKS

Best Ways to Teach Kids How to Play

BY MERCER BEASLEY  
The A-to-Z Man of Tennis

Vincent Richards, well known internationalist, in a recent article said that no child is too young to start playing tennis. "Let him start as soon as he is big enough to swing a racket," wrote Richards.

Richards, however, didn't give any particulars as to the size or weight of racket the child should use. Should a child of, say, eight years old, use a racket weighing 13 ounces? Or should he be given a light weight racket, reduced proportionately in size?

It is my opinion that no one should start to play tennis until he is able to swing a regular size racket. Fortunately the regular size rackets come in light models especially adapted for use by children. See that the young beginner gets one of these models by all means. Guard against him starting out with a toy racket. This is bound to deter his progress.

I find in teaching the kiddies that they have a natural aptitude for the game and most of them take a natural swing at the ball. What bothers them most is the sharp and sudden bounciness of the ball. They have trouble in following its movements and hitting it squarely with a racket.

A fine way to carry them thru this trouble is to take a ball and bounce it on the court to the child and let him catch it. This trains the eye and the hand to follow the quick movements of the ball, and later on the child finds it easier to hit the ball with the racket.

Don't let your youngsters try to hit the ball out of the lot either. Let them stand about in the middle of the court and do their serving and returning from that point until they get stronger and more experienced.

## DRIVING TO CHICAGO

KENTUCKY ANXIOUSLY  
WAITS FOR EPINARD

LATONIA, Ky. (AP)—Latonia is dressing up for its biggest autumn meet, with \$50,000 in stakes to tempt horsemen. There will be run also the third of the international races in which the famous French race horse, Epinaud, will meet the best of America's three-year-olds and up horses for a \$50,000 added purse, scheduled for October 11.

If the French horse does what some horsemen expect it to do in the east, win the two international sweepstakes, the third race here will be the climax of the thoroughbred racing season in America. But regardless of what Epinaud may do in the races at Belmont Park on Labor Day and at Aqueduct September 27, off fields of the Kentucky Jockey Club are making preparations to handle the largest assemblage of race enthusiasts in its history.

The fall racing season here will open Sept. 13 and continue until Oct. 18. Six states are distributed over the 31 days of racing. In addition to the feature race, the third of the international races. This special race will be over a mile and a quarter route.

The other stages are: The Fort Thomas Handicap, 2-year-olds, 6 furlongs, \$5,000 added; the Autumn Handicap, 3-year-olds and up, 6 furlongs, \$5,000 added; the Covington Handicap, 3-year-olds and up, 1 1-4 miles, \$5,000 added; the Latonia Cup Handicap, 3-year-olds and up, 2 1-3 miles, \$10,000 added; the 3-year-olds, 1 3-4 miles, \$15,000 added and the Queen City Handicap, (closed), 2-year-olds, 1 mile, \$10,000 added.

## FRANKLIN BASEBALL

TEAM GOING STRONG—The Franklin baseball team so far this season has a perfect record, winning every game in the fact that this is their first year of organization or several years without base-

Last Thursday at the picnic in Franklin Burl May's State Hospital team was defeated by a shut-out score of 8 to 0. Sublett doing a fine job of hurting with J. Zell receiving him. The whole team played excellent ball and were strengthened considerably by the acquisition of Larry Sullivan, a Chicago semi-pro who filled the third base position and who hit the pill often and hard.

Well this afternoon at 2:30 and although in the previous game Sinclair was defeated by a big score the visitors have strengthened their lineup and are coming prepared to put up a real fight. Sublett will be held in reserve today with Doyle and Zell serving as the battery.

Manager Sherman Ryan is anxious to book a few more games this season, the games to be played on Sunday either at home or abroad.

BLACK GOLD IS HELD  
IN HIGH ESTEEM BY  
FOND RACING PUBLIC

Is Believed by Many Too Much Popularity Will Ruin Career.

LOUISVILLE, Ky. (AP)—Too much popularity may affect the turf career of Black Gold, as it finally ruined famous Old Rosebud, ten years ago, in the opinion of Kentucky turf experts who see in the public clamor for the Hoots colt many of the possibilities which brought destiny to Old Rosebud.

Not since 1914, when Old Rosebud won the Kentucky Derby and set the record for the race at 2:03 2-5, has there been a racer held so high in public esteem. Lovers of horseflesh are showering their affections on this black son of Black Tony and the little Indian pony, Useit.

Old Rosebud, after winning the Derby in 1914, was sent east and broke down during a race at Belmont. His owners sent him to Texas and three years later he came back and beat Roamer and other leaders. He was so popular he was "raced to death" and was destroyed two years ago.

For several years no horse received the admiration that was Old Rosebud's. Black Gold made a bid for it last winter when he won the Louisiana Derby at New Orleans. He was the favorite in the Kentucky Derby and came from behind to win the fiftieth renewal of that classic.

He went on to Cleveland and annexed his third derby, the Ohio event. His first reversal came in the Latonia Derby a short time later, when Chilhowee and Gibson romped home ahead of him. Like the only race Man O'War ever lost, turf enthusiasts still are trying to explain how it happened. Black Gold obtained revenge by beating Gibson by six lengths in the Chicago Derby. He thus equaled the record made in 1913 by Claude, the only other horse that ever won four derbies in a year.

A chance to win five derbies in a single season slipped by at Ashland, Ky., when Bob Tail and Al-tawood beat Black Gold, the favorite, by a nose. Turf experts began to wonder if Black Gold was not being raced too often to satisfy the demands of the public.

Unlike famous thoroughbreds of old, Black Gold was not bred in the purple. There is some doubt as to his mother's blue blood. Useit belonged to an Indian, Al Hoots. When Hoots died his wife carried out her husband's wish and mated Useit with Black Tony, E. R. Bradley's colt. Black Gold has won for Mrs. R. M. Hoots in two seasons more than \$100,000.

There is a little brother of Black Gold now at Useit's side at the Idle Hour farm.

OLD RIVALS WILL  
DEDICATE STADIUM

ANN ARBOR, Mich.—"Beat the Suckers," that's the slogan that will be preached to candidates of the Michigan football eleven when training begins September 15. It will be the battle cry of the Wolverines for the clash with Illinois.

Zupke's team looms as Michigan's most-feared rival in the 1924 hunt for the Western Conference championship. The Urbana school expects to have one of its strongest aggregations in years, with "Red" Grange and Jack Britton as outstanding celebrities.

Michigan will meet Illinois Oct. 18 at the Illini playing field. The Wolverines will help dedicate the new stadium. Both teams have been hot enemies for years. Outside of Ohio State Yost would rather whip a Yellow and Blue outfit than any other team on the Michigan schedule.

Michigan and Illinois went thru with clean slates last fall. They were knotted for the Big Ten bunting, just as they were back in 1918. This year the two rivals will resume football relations after a two-year lapse. They will take up hostilities where they left off in 1922, when the Ann Arbor boys administered one of the worst beatings a Zupke-coached eleven has ever received.

Illinois hasn't forgotten that whipping and will be out to hand the Wolverines a dose of their own medicine.

INGWERSON TO COACH  
ELEVEN AT IOWA

Iowa City, Iowa. (AP)—Just five years after he started his final year of collegiate competition in the Western Conference, Burt Ingwerson, former University of Illinois football and baseball star, will assume charge of the University of Iowa eleven, a team against which he waged three fierce battles on the gridiron and six on the baseball field during his undergraduate days. He reports for duty September 1, succeeding Howard H. Jones.

Ingwerson and Fred (Duke) Slater, Iowa's famous negro tackle, were teammates at the Clinton (Iowa) high school and met three times in Big Ten battles.

During the Iowa-Illinois game in 1919, Slater and Ingwerson seemed to be waging a personal bitter battle, but after the game they shook hands and walked together from the field.

Coach Ingwerson quickly became a popular hero in Iowa City last April, when he arrived to take charge of an intensive two weeks spring training camp.

Gordon Locke, all-American fullback, is to be Ingwerson's first assistant.

Ingwerson was born on a farm near Fulton, Ill. He entered high school at Clinton, Iowa, in the fall of 1913 and soon became one of the school's leading athletes. He matriculated at the University of Illinois in 1918, and in his first year, he was varsity tackle.

Twice in his four years at tackle he won a place on all-American elevens. He was captain of the Illini one year. His other sport was baseball in which he excelled as an infielder, playing four years. Several teams, including the Chicago Cubs, offered to sign him, but except for a few months play in a minor league, he confined his baseball to college. Upon his graduation, Ingwerson was immediately signed as an assistant football coach under his old teacher, Robert Zupke. He is 24 years of age, the youngest coach of any major college eleven in the United States. He will work on a 12 months' basis here.

Allentown, Pa. Aug. 30.—Al Leoney, Olympic and former Lafayette College star sprinter today ran the 100 yard dash in 9 2-5 seconds, one fifth of a second faster than the world's record held by Charles Paddock, Howard P. Drew and Dan Kelly. In lowering the world's mark Leoney defeated Paddock and Loren Murchison, of Newark, in the feature event of the Knights of Columbus track meet on the athletic field of Muhlenberg College.

HAWTHORNE SEASON  
LONGER NEXT YEAR

CHICAGO, Aug. 30.—Chicago will have 53 days or racing at Hawthorne next season, Joseph A. Murphy, general manager of the Chicago Business Men's Racing association announced tonight. The meeting will open July 2 and continue until Labor Day, Sept. 6.

The Chicago Derby with \$20,000 added, will be decided July 11 and the Chicago Special at a mile and three-sixteenths with \$15,000 added will be run on August 22.

The present meeting of 53 days will end Labor Day with the running of a \$5,000 handicap.

### CENTENNIAL POEMS ON SALE SATURDAY

Anthology of Jacksonville Verse Almost Ready—Many Advance Orders.

"Jacksonville Poets: 1825-1925," the Journal's centennial anthology of Jacksonville verse will be through the press within a few days, and is expected to be offered for sale next Saturday. The book will be obtainable from the Journal office or from local bookstores at fifty cents a copy. Judging from the large number of advance orders which already have been received, the edition will have an extremely rapid sale.

The nature and purpose of the volume are set forth in the Foreword, which reads as follows: "This modest collection of the work of Jacksonville verse writers is published by the Jacksonville Daily Journal, as a contribution to the celebration of the centennial of the city's birth. The anthology has been prepared and issued with the approval of the Centennial committee.

"The selection of poems for inclusion was made, after public appeal for contributions, by the Journal's literary staff, who represented also the local circle of the Order of Bookfellows. Effort was made to have the collection as representative as possible.

"For permission to reprint some of the poems included in this volume, thanks are expressed to the editors of the American Poetry Magazine, the Christian Century, the New York Times, the New York Herald, and the Chicago Tribune."

The collection contains twenty-three poems, by fifteen authors.

## Shooting Affray Ends In Killing Of Negro

Chester Paxton, colored, 319

Anna street, was shot and instantly killed about 6 o'clock last night during an altercation with Roscoe House, also colored, at the home of the latter, 608 South West St. House, who is 23 years old, is lodged in the city police station, being held for the murder of Paxton. Colored residents of the neighborhood who witnessed the shooting were unable to provide information as to the motive; except that House, to all appearances fired in self defense.

Police were called to the neighborhood shortly after 5 o'clock on reports that there was trouble at the House home. They questioned House, but failed to obtain any information as to the nature of the trouble.

House and Paxton, according to witnesses, have been friends for some time. However, about 5 o'clock yesterday afternoon Paxton came to the residence of William Sales, father-in-law of House. Paxton is said to have started a quarrel with Sales, who resides at the Sales home. House, who also lives with Sales, told Paxton to go back home, and immediately the other is said to have turned on him. Paxton, it appears, struck Holiday in the eye. On the approach of officers who had been called to the scene of trouble, Paxton went away.

Shortly afterward, however, he returned. House was in the yard with Sales, and the two were working on their car. On seeing Paxton approaching, Sales is said to have gone into the house. Paxton came into the yard and called him out, saying that he wanted to see him. House came out on the porch.

Paxton then began cursing House, witnesses say, and immediately, according to further statements of witnesses, House went back indoors and obtained a gun.

When he came out again, Paxton was walking toward him. Witnesses saw House fire twice. On the first shot, Paxton shot. When House fired again the other turned and started toward the street.

### MISS EDNA CARTER IS BRIDE OF J. A. GUYETTE

Marriage of Well Known Young People Solemnized Saturday Night Is Pretty Home Ceremony.

The marriage of James A. Guyette and Miss Edna Olga Carter was solemnized at 8 o'clock Saturday night at the home of the bride's parents, Mr. and Mrs. C. C. Carter, 47 South Main street. The marriage service was read by Rev. M. L. Pontius in the presence of a small company of relatives and friends. The Carter home was handsomely decorated with summer flowers for this wedding event. As the Mendelssohn march was played by Miss Lillian Carter, the bride and groom, attended by Mr. and Mrs. Wilbur Hauck, stood before the minister. The impressive ring service was used.

The bride's gown was of white Canton crepe and she carried a bouquet of bride's roses. After the ceremony congratulations were extended and refreshments were served in the dining room.

Mrs. Guyette is a Jacksonville girl of gracious ways who has been more than usually popular within her circle of friends. She is a musician of exceptional ability, her skill as an accompanist being known to many Jacksonville musicians. She is a member of Central Christian church and for several years past she has been employed in Ye Book Shoppe.

Mr. Guyette who is counted among the substantial young business men of Jacksonville, was for a number of years associated with the late W. T. Brown in the piano business, and four years ago became the proprietor of the business.

As indicated, both of these young people are well and favorably known in Jacksonville. After a brief wedding trip they will live at 764 South Church st. in a home which Mr. Guyette recently purchased and which has been furnished in readiness for this nuptial event.

### L. GOHEEN RETURNS FROM G. A. R. MEETING

L. Goheen, Civil War veteran, has returned home from Boston, where he attended the annual convention of the Grand Army of the Republic. At the close of the convention, Mr. Goheen visited a number of other points of interest in the East, including Washington, Baltimore and New York. At the national capital he made pilgrimages to the house where Lincoln died, and to the new Lincoln memorial.

At the Gettysburg battlefield, Mr. Goheen found that many changes had been made since he visited the place twenty years ago. The place is now fenced and is laid out in beautiful avenues.

#### W. J. EADS HERE TO VISIT PARENTS

William J. Eads, formerly a resident of Jacksonville and member of the Journal staff, now city editor on the Marion Ohio Star formerly owned by the late President Harding, is in the city for a week's visit with his parents Mr. and Mrs. George Eads of S. West street. Mrs. Eads is also here to visit relatives.

#### House Tells Story

House later told police that when Paxton turned away and started to run, he fired again. Witnesses say there were two more shots, but House claims only one. Paxton, turned south, jumped a high fence into an adjoining yard and fled toward the back. He fell near a wall in the back yard and apparently died instantly.

Police were called and Coroner C. A. Rose was notified. House was taken into custody and lodged in the police station. The remains of Paxton were taken to the Gillham Funeral Home, where they were examined by Dr. H. C. Wolfman. Apparently three bullets took effect in the body. One seems to have entered the left side of the back and dislodged a bullet from the left lower chest. Another bullet apparently entered the back of the head on the right side just above the junction with the neck and it is thought that this is the wound which proved fatal. Paxton also received another shot thru the left arm.

Chief of Police Kiloran and men from both the night and day forces worked for several hours on the case last night, and a list of witnesses was obtained, and these will be heard at the inquest, which Coroner Rose plans to hold Monday.

The revolver, with which House is alleged to have shot Paxton, is now in possession of Chief Kiloran. It is a small 32-calibre Iver-Johnson with five bullet chambers. Four of the chambers contained empty cartridges, and the fifth had a full load, which seems to bear out the statements of witnesses that House fired four shots. Witnesses claim that Paxton had been drinking when he came to the home of Roscoe House and began the trouble with Holiday. William Sales states that he told Paxton not to fight in the yard, but to go away.

House, who is being held for the murder, has been for some time, serving as a house man. Paxton, the murdered man, was a laborer by occupation. He is survived by his wife. House is also a married man.

There were two balloon ascensions and a parachute jump.

### PETEFISH FAMILY MEETS IN REUNION

The third annual reunion of the Petefish family was held at the home of Frank Ogle, known as the Adam Prince homestead, near Virginia Friday, with 96 members present. After a picnic dinner, an informal program was given, with M. C. Petefish of Virginia presiding. Talks were made by various members of the family, and a brief family history read by Mrs. A. E. Petefish of Springfield.

The oldest member present was Arthur Petefish of Pratt, Kansas, who drove from his home with his son, Hugh Petefish, and his daughter, Mrs. John Marcker. It was voted to hold next year's meeting at the Jacob Petefish homestead in Cass county, Iowa, Wednesday in August.

Officers elected for the year were as follows:

President—M. C. Petefish, Virginia.

1st vice-president—A. E. Petefish, Springfield.

2nd vice-president—O. M. Petefish, Litterberry.

Recording secretary—Lora Petefish, Litterberry.

Corresponding secretary and historian—Mrs. C. M. Woods, Springfield.

### MONDAY WILL BE BIG DAY AT COUNTY FAIR

Monday will be a big day at the Morgan county fair. The afternoon program will start promptly at 1 o'clock with an address on the hard road situation by Frank T. Sheets, state highway engineer. He will speak from a huge decorated truck in front of the grandstand, and will be surrounded by members of a joint committee from the fair association and the Chamber of Commerce, to consist of J. W. Arnold, Clifton Davis, J. L. Henry, T. M. Tomlinson, W. E. Sullivan and H. J. Rodgers.

The address will be followed by a heavy program of races, consisting of a 2:30 trot, 2:17 pace, 1 mile green pace, 1 mile running race, and pony race. The races will be interspersed with free acts. At night there will be a big display of fireworks.

#### BIRTHDAY PARTY FOR MISS HELEN REA

Mrs. John Rea entertained recently in honor of the seventeenth birthday anniversary of her daughter, Helen. There were various games and contests to provide amusement during the hours, and music also had a place on the program. The winners in the contests were Mrs. Allen Adams, Miss Mabel Winters, Miss Inez Sheppard and W. G. Penney. Miss Helen received a number of acceptable gifts. Refreshments of ice cream and cake were served during the evening.

Among those present were Mrs. George Winters, daughters Iva and Mabel; Mrs. Mattie Taylor, daughter Dorothy; Mrs. S. S. Sheppard, and daughters Inez and Susie; Mr. and Mrs. Sam Henry, Margaret Henry, Don Henry, Mrs. Allen Adams and daughter Emily; Miss Edith Turner, Miss Jane Irlam, Miss Dorothy Rea, Mr. and Mrs. W. G. Penney of Montreal, Canada.

#### AT BROOKLYN CHURCH

The pulpit will be occupied at Brooklyn church this morning at 10:45 o'clock, by Mr. Childs, of Mason City, the representative of the Anti-Saloon League, who will deliver the annual address on that subject. The Sunday school will meet at 9:30 a. m. and the Epworth league at 6:30 p. m. The Sunday evening service will be dismissed to attend the last union meeting on the lawn of Grace M. E. church at 7:30 o'clock.

### JAMES M. BARNES TO PRACTICE LAW HERE

Son of Late Judge C. A. Barnes Is Newest Member of Morgan County Bar—To Open Office in Wilson Building

During the coming week James M. Barnes is to open a law office in Jacksonville. Mr. Barnes will begin his practice in an office in the Wilson building adjoining that of William T. Wilson.

After graduating from Illinois college in 1921, Mr. Barnes entered Harvard law school, which he finished in June with a very creditable showing in a class of 175. Still more recently Mr. Barnes passed the Illinois bar examination in Chicago, and he is now ready to enter upon his life work.

This newest addition to the members of the Morgan county bar comes of a family of lawyers and is more than usually well equipped for law practice. His father, the late Judge Charles A. Barnes, was for a long period one of the leading practitioners in this part of the state, in addition to having prominence in Democratic politics of the state and a national connection with a great fraternal order.

It will be very gratifying to friends of Mr. Barnes to know that after considering the question seriously and taking into account the possibilities in some other localities, that he decided to locate in his home city.

### FORTY-ACRE FARM IS SOLD AT AUCTION

At an administrator's sale held at the county court house Saturday afternoon, a forty acre farm belonging to the estate of the late Mary L. Edwards was sold to Charles W. Keener for \$66 an acre. The property contained a three-room house, a barn and other improvements.

The petition for the sale of the estate was filed by Greenup Edwards, administrator. Judge William E. Thomson is attorney for the estate, and F. L. Gregory guardian ad litem for the minor defendants.

#### VISITORS FROM CANADA

Mr. and Mrs. W. G. Penney returned recently to their home in Montreal, Canada, after a two weeks' visit with Thomas Irlam and C. D. Irlam and other members of the Irlam family. Mrs. Penney is a niece of Thomas and C. D. Irlam.

#### LEFT FOR NEW MEXICO

Edward Irlam has gone to New Mexico to visit his sister, Mrs. Hudson. He will bring back with him his sister's three children, who will attend the schools in Illinois this winter.

### ONLY FOUR LEFT IN WAR TROOP

Company G First Missouri Cavalry Has Great Record.

Of the famous Co. G, First Missouri Cavalry, mainly recruited in this county, but four resident members remain. They are Capt. W. A. Kirby and Comrades John Brown, Riggs Taylor and W. H. Jordan. Comrades Jordan and Brown, are confirmed invalids, and Comrade Taylor is suffering from neuritis while Capt. Kirby, though 87 years old, is quite spry and in good health.

Some of the members were Capt. John E. Wright, C. W. Matthews, George VanZandt, J. W. Melton, Jas. Magill, George Glenn, the youngest, George Moore, Burnett of Waverly, and others. One member, a Mr. Wilson, lives in Cass county. The company was commanded by Barbour Lewis who was detailed to other duty and was with the company but little. The company saw some stirring times fighting guerillas in Missouri though none of them boasted about it.

When urged to do so, Capt. Wright was wont to tell of a hard encounter in which he almost lost his life. He was in command of a squad detailed to escort a militia captain on a visit home. They were surprised and Thomas was killed and the guerillas mutilated his body and John Wright swore vengeance then and there and had a record of 22 guerillas whom he made bite the dust.

They learned that Jim Field, a noted character, was hiding in a house near a swamp and thither the captain led his squad charging them, if he fell, to keep Field from getting to a swamp back of the house. Riding at full speed, bearing away fences and all obstructions, they drew near the house when Field saw them and broke for the swamp. Capt. Wright intercepted him and then Field, a powerful man, attacked the captain and was making things lively for him when some of the boys approached and ended Field's career with a revolver.

#### AND MEMBERS RETURN FROM MEREDOSIA

Members of the Jacksonville County band returned to the city Friday night from Meredosia where they spent Thursday and Friday evening making for the homecoming celebration. The bandmen put in a busy two days, rendering more than fifty selections during the period. There were thirty members of the band in the homecoming concerts and they gave some excellent music to the crowd. The band was led by their leader, The Rev. John J. Wardell. The band was treated with the utmost courtesy during their stay in the neighboring city and are well pleased with the reception given them.

### BABY TENT AT FAIR IS ATTRACTIVE SPOT

Entry List Is Held Open Till Monday For Babies—Arrangements Made to Care Adequately For Children.

More than a hundred children are entered in the Better Baby Conference, which promises to be a leading feature of the Morgan county fair. The baby tent has been erected under the trees to the right of the main gate and occupies one of the choice positions in the grounds. There will be six apartments in the tent. It has been equipped with a septic tank and toilet for the convenience of mothers and children.

About twenty-five volunteer workers will be on duty, as well as a number of physicians and nurses. Dr. David Reid has charge of the medical division and is arranging for a staff of examining physicians. Dr. A. B. Applebee is arranging for dentists of the city to serve on the clinic staff at various times.

A child on entering the conference tent will first be taken to a physician for a general physical examination and will be given a bill of health as to its freedom from communicable diseases. The child will then visit the nose and throat specialist and the dentist. It will then be weighed and measured, and finally will be submitted to a mental test. The entry period is extended until Monday when all entries are expected to be listed. Each entrant is issued an appointment card, which insures each child a place on the conference list.

#### A PLEASANT GATHERING

Yesterday afternoon, Mrs. J. I. Barrows, residing at 711 W. College street had a pleasant though short visit from her nephew, Rev. Alfred Barrows, D. D. of Washington, D. C.

There were also present Mr. and Mrs. Ed Barrows living southeast of the city. While the guests were enjoying themselves, Mrs. J. I. Barrows happened to see Capt. W. A. Kirby passing and hailed him and he too was glad to greet the visitors and learn something of his nephew Harry McLaughlin, residing in Nebraska.

#### TAKING MOTOR TRIP

Mr. and Mrs. H. C. Busby and Mrs. C. P. Siegfried are leaving early today to visit with relatives at Fairmount, Illinois, near Danville. Mr. Siegfried will proceed from there to Champaign to attend the annual state convention of the American Legion.

#### PASTOR RETURNS HOME

The Rev. H. R. Wardell, pastor of Jacksonville circuit, has returned with his family from a motor trip to Lawrence county where the family has been visiting with relatives.

## REJECTION CLAIM FOR BONUS APPEALED TO STATE CLAIMS COURT

Will Probably Set Precedent  
in Settlement of Other  
Claims

of the Illinois soldier bonus, to be

appealed from the ruling of the  
Service Recognition Board, will  
be heard by the Illinois State  
Court of Claims when it meets  
here in regular session, Septem-  
ber 8. Because of the precedent  
the court's ruling may set, it is  
believed Chief Justice A. J. Clar-  
ity of Freeport and both asso-  
ciate justices, W. S. Phillips of  
Ridgeway and William L. Leach  
of Amboy, will listen to the argu-  
ments in the case, instead of tak-  
ing it among other cases on indi-  
vidual assignment.

This appeal is brought by Ed-  
win O. Linder, a lawyer of Chic-  
ago, whose bonus claim was re-  
jected on the ground that his legal  
residence had been changed from  
Illinois to Michigan when he en-  
listed. Mr. Linder makes a gen-  
eral denial, and asks that the  
court of claims review all the fact  
in the case and recommend that  
his claim for \$101.50 be allowed  
by a special act of legislature.  
Linder will be represented by his  
law partner, Lee W. Carrier of  
Chicago. There are many rejected  
claims of the same category. Should  
the court grant Linder's  
appeal it is probable that many of  
them will follow it into court.

According to the bonus law,

every person who served honor-  
ably in active duty in the military  
or naval service of the United  
States at any time between the  
sixth day of April 1917, and the  
eleventh day of November 1918,  
and who at the time of entering  
such service was a resident of the  
state of Illinois, . . . and who  
was in service for a period longer  
than two months, shall be entitled  
to receive from the soldier's com-  
pensation fund fifty cents for each  
day of active service, but not to  
exceed \$300.

The law also provides that no  
payment shall be made to any  
person:

1. Who was dishonorably dis-  
charged without honor, or 2.  
Who, being in the military or na-  
val service, refused on conscien-  
tious, political or other grounds  
to subject himself to military  
discipline or to render unquali-  
fied military service, or 3. Who,  
though in service, did civilian  
work at civilian pay, or 4. Who,  
has received from another state  
a bonus or compensation of a like  
nature as is provided by this act,  
or 5. For the time spent while  
taking training in any students  
army or navy training corps.

REST NOT NECESSARY  
DURING VACATION

Springfield.—Greatest benefits  
from summer vacations come to  
those who make the most com-  
plete changes in activity and en-  
vironment, and not to those who  
get the most complete rest, ac-  
cording to Dr. Isaac D. Rawlings,  
state health director.

"Rural district laborers and  
farmers may have the most ben-  
eficial vacation by visiting the  
busy cities for two or three weeks  
while a job on the farm or a few  
weeks outdoors would be the best  
rest for the office man or city  
family," said Dr. Rawlings.

## Public Health Bulletin

Published Weekly By Morgan County Health Dept.

Vol. 1 August 31, 1924 Number 21  
DR. THOMAS A. MANN, Health Officer

### Teeth, Tonsils, Adenoids

If a man wishes to develop a  
fine orchard he does not neglect  
the young trees by simply pay-  
ing attention to the old ones. He  
eliminates all defective trees and  
uses the proper methods to pre-  
vent tree diseases by using both  
the spray and pruning hook. He  
sees that the young plants get  
the proper food and applies the  
food so it can become easily avail-  
able.

In developing a good citizen it  
is likewise necessary to pay at-  
tention to those measures, which  
will insure proper physical  
growth and development.

Certain physical defects can be  
easily remedied in the young  
child, which if neglected lay the  
foundation for premature decay.  
Parents should see that the little  
children get the proper food and  
that normal growth takes place.  
If defective breathing or fre-  
quent sore throat is common, a  
good reliable specialist should be  
consulted.

The Better Baby Conference  
gives a fine opportunity for par-  
ents to determine whether or not  
their child is developing properly.  
Do not wait until disease and  
decay develop in the physical  
body, but bear in mind that "an  
ounce of prevention is worth a  
pound of cure."

In a few weeks thousands of  
children will go back to school  
and begin the work designed to  
make them good citizens. When  
they carry messages from the  
teacher or medical inspector ad-  
vising that certain things be  
done, parents should use every  
effort to carry out the advice.

The Health Department finances  
in order that the public may  
know how the Morgan County  
Health Department is financed  
the following statement is made.  
The Department is run on a co-  
operative basis by four different  
units: The County of Morgan;  
The City of Jacksonville; The  
State of Illinois; and The Rocke-  
feller Foundation. The budget for  
1924 is \$12,950. Of this sum the  
State and Rockefeller Foundation  
pay \$2400.00. The per capita

for pound to the same constituent  
in corn.

"For this reason when corn is  
84 cents a bushel and choice cot-  
tonseed meal is worth \$50 a ton,  
the dairyman can afford to pay  
\$20 a ton for when bran, \$45 a  
ton for linseed oil meal, 47 a ton  
for soybeans and \$39 a ton for  
gluten feed and still get protein  
as cheaply as he would in the  
cottonseed meal."

## HIGH PRICES MAY BE DODGED IF FARMERS USE CHEAPER FEEDS

Ground Barley, Hominy  
Feed or Oats May Sub-  
stitute for Corn

URBANA, Illinois.—Advances in  
the prices of dairy feeds not only  
have come earlier this year, but  
have also been greater than usual  
at this season, according to W. B.  
Neivins, assistant chief in dairy  
cattle feeding at the University  
of Illinois.

During June the ten prices of  
such feeds as wheat bran, linseed  
oil meal, gluten feed and cotton-  
seed meal jumped as much as  
\$3.50, while the advance in price  
of some of these feeds was as  
much as \$6 a ton, he said. Fur-  
ther advances are predicted, when  
the barn feeding begins.

Dairyman who have not laid in  
a supply of needed feeds can get  
around the recent advance in  
price by substituting cheaper  
feeds for some of the higher  
priced ones, he recommended.  
A hundred pounds of ground shell-  
ed corn, the price of which has  
taken an upward trend, may be  
replaced by 108 pounds of ground  
barley, 101 pounds of hominy  
feed or 122 pounds of ground oats,  
without any loss of feeding value.  
In fact, the barley and oats con-  
tain slightly more protein than  
the corn, he said.

"Using these comparative feed-  
ing values and figuring corn at 84  
cents a bushel, dairyman can af-  
ford to pay 67 cents a bushel for  
a bushel of barley, 39 cents for  
oats and \$29.70 a ton for hominy  
feed."

"With corn at \$1 a bushel, bar-  
ley is worth 79 cents a bushel,  
oats 47 cents and hominy feed  
\$35.35 a ton. These prices do  
not take the cost of grinding the  
grains into consideration.

"Likewise it is possible to sub-  
stitute some of the cheaper pro-  
tein feeds for the highest priced  
ones. Usually the protein con-  
centrates having the highest per-  
centage of protein are the cheap-  
est sources of this element. How-  
ever, when corn is high in price,  
the value of the lower protein  
feeds increase, because they can  
furnish some of the feed consti-  
tuents that are obtained in corn.  
The constituents other than pro-  
tein in these lower protein feeds  
have a feeding value equal pound

## PERSHING TO VISIT FOREIGN WAR VETS ANNUAL ENCAMPMENT

Defense Test Program Will  
Be Featured by Mon-  
ster Parade

ATLANTIC CITY, N. J.—A de-  
fense test program, featured by a  
parade to be reviewed by General  
John J. Pershing, and in which  
troops of the army, navy and  
marines and the national guard  
of New Jersey will play a distinc-  
tive part has been arranged as the  
closing event of the 25th annual  
national encampment of the Vet-  
erans of Foreign Wars, meeting  
here September 8-12 inclusive.  
According to the war department  
dispatches this demonstration will  
be second only to the one to be  
held at Washington, D. C. Ap-  
proximately 30,000 members of  
the Veterans of Foreign Wars,  
men who have seen actual battle  
service in one or another of  
the wars during the last  
seven decades will be in the line  
of march. Eligibility clauses of  
this veteran order admit only to  
their ranks those who have worn  
the uniform in the theater of op-  
erations. A membership of 150-  
000 scattered thru 1,300 posts is  
claimed.

Other distinguished members of  
the order attending the encamp-  
ment will include: General John  
L. Hines and Amos O. Fries of the  
army; Admirals Eberle and  
Cointz of the navy and General  
John A. LeJeune of the Marine  
Corps. General Frank T. Hines of  
the veterans Bureau, accompanied  
by officials of his staff will relate  
the work of that department of  
the government.

The Prince of Wales, who will  
visit America to witness the in-  
ternational polo matches, is expected  
to carry the greetings of British  
and Canadian comrades.

General Lloyd M. Brett, com-  
mander-in-chief of the Veterans  
of Foreign Wars, the present ad-  
jutant of the District of Columbia,  
will preside at the encampment.  
Pershing's senior at West Point  
by seven years, he still remains in  
active service after 44 years in  
the regular cavalry, during which  
time he has actively participated  
in every war, campaign and expe-  
dition in which America has been  
embroiled. He wears the medal of  
honor, highest American award  
for valor and has been signally  
favored by the allied nations for  
gallantry during the World War.  
He commanded a brigade of the  
Blue Ridge Division in France.

From all indications the V. F.

work can not be seen in one year.  
It takes several years to see the  
results in the death rate. There  
is no economic law that is more  
certainly reflected in beneficial  
results than that of improved  
conditions following a generous  
public support of public health  
measures. Private institutions  
like the Rockefeller Foundation  
fully realize this. Sometimes we  
wonder if the general public does.

in the famous resort. In addition  
to the \$25,000 entertainment fund  
appropriated by the state, the city

sy—Funeral Services Today.

Waverly, Aug. 20 — John Mc-  
Kee passed away at 12:30 o'clock  
Saturday at the home of his bro-  
ther, George McKee, at the age of  
forty-seven years. The deceased  
had been ill for several months  
from dropsy and the end was not  
unexpected.

Mr. McKee was born in Clinton,  
Ill., and came to Waverly in early  
life, having spent most of his life  
in this community.

Surviving are three brothers,  
George of Waverly, Charles Mc-  
Kee of Springfield and Albert Mc-  
Kee of Clinton. Funeral services  
will be held from the residence  
of George McKee at Waverly. In-  
terment will be in East cemetery.

Thomas Martin of Bath was  
among the out of town callers in  
the city Saturday.

RADIO ON MOTOR  
STAGE SHORTENS  
FIVE-MILE RIDE

Five-Tube Set is Erected on Instrument Board of Night-Run Autos

Portland, Ore., — Radio is shortening the 50-mile motor stage run between here and Salem on evening trips, when it's too dark for passengers to look at the scenery or read the papers. P. Van Datta, who operates the line, noted the bored look on night passengers. He began experimenting with radio, and the results are great.

**CLOSING NOTICE!**  
Monday September 1st being Labor Day and a legal holiday all stores, business houses and shops will be closed all day except those places of business that are usually open on Sunday. Motion picture houses and other places of amusement will also remain open.

compartment, one in the ladies' section and the third in the smoking compartment. As night descends, the driver tunes in through his loud speaker. Then he throws a switch, transferring the reception from his compartment, to those carrying passengers. This leaves him uninterrupted by sound while driving and gives the passengers entertainment.

**Aerial Not Jarred**  
Fifteen wires, each 18 feet long strung along the top of the big car, make the aerial. Springs are used so the aerial is not jarred. The car frame is used for the ground, and the car battery supplies electricity for operating the set.

AERIALS DO NOT  
ATTRACT LIGHTNING

CHICAGO, (AP)—Fears of many radio fans that the erection of receiving aerials upon their residences would tend to attract lightning during the summer storms have been allayed to a great extent by the fact that not more than one or two instances of lightning striking such antennae have been recorded. As a matter of fact, experts say, attraction of the powerful lightning bolts by the small wires used in an aerial is so infinitesimal that it does not cause the slightest deviation of the terrific current which carries millions of volts in its downward rush to earth.

These same experts declare that the fact that an aerial had been located on the top of a house would have nothing to do with lightning striking the house, for, they say, the bolt would have hit the house whether the aerial was there or not if it had been headed that way. In addition they say that the aerial gives the same element of safety as that provided by the old time lightning rod.

However, placing of a lightning arrester in the aerial to the ground circuit, as required by the National Board of Fire Insurance Underwriters should not be overlooked, the experts say. The arrester, they point out, forms a low resistance path to the ground for the leakage of the accumulated charge that forms on the aerial during a storm.

That the air becomes overcharged with electricity during a storm is easily evidenced to the radio listener by the increase in the amount of static.

If this overcharged condition is not dissipated by the use of an arrester, the current must go through the primary winding of

the receiving set, and sometimes, if heavy enough, will burn out this coil and may cause other damage to the receiving set. The arrester, the experts add, prevents such a happening and quickly leads the current to the ground. The arrester, however, does not lessen the amount of static.

RADIO CONNECTION  
WITH MINE SUCCESS

Springfield, Ill. (AP)—Attention of the United States Bureau of Mines has been drawn to the High School Radio club of this city, after the club's experiments in communicating by ground tele-

phony from the surface of the ground to persons inside a mine 250 feet below the surface. The experiments were successful. Members of the mine bureau believe that this is the first instance of accomplishment of the feat. The experiment is being studied because of its possible value in mine work.

**RE-BROADCAST RECORD**  
When station WGN, Chicago, first went on the air, the owners took phonograph records of the program. Recently the same program was re-broadcast from the records made.

DR. WILLIAM KRAUPNER  
Director of The Conservatory of Music

Dr. William Kraupner, the new director of the Illinois College Conservatory of Music has arrived in the city and has begun his duties at the Conservatory. Dr. and Mrs. Kraupner have rented an apartment at the Cain home on Webster avenue.

It will be remembered that Dr. Kraupner has already appeared in concert in Jacksonville, having given a recital in connection with the Conservatory orchestra last spring. His playing at that time was sufficient assurance to the friends of the Conservatory that the high quality of work for which this school has always been distinguished will be continued under the new director. He is not only a musician of high standing but is also

a scholar of considerable accomplishment in the field of mathematics.

He is a graduate of the Royal Conservatory of Leipzig and has a doctor's degree from the University of Cincinnati. His first teaching experience was in Russia at the College of Charkow and he was for fifteen or eighteen years a member of the Artists' Faculty of the Cincinnati Conservatory of Music and more recently has been head of the piano department at the Reardon School of Music at Youngstown, Ohio. Patrons of the Conservatory who may wish to confer with Dr. Kraupner may make an appointment with him either at the Conservatory of Music or by telephoning the President's office at Illinois College.

## RADIO SERMONS ARE

**STOPPED IN GERMANY**  
Breslau, Aug. 27. (AP)—Sermons and church services broadcast over the radio have been forbidden by order of the consistory of the Evangelical Church of Prussia.  
When news reached the ecclesiastical body that a pastor of this city had delivered such sermons with much success, but without asking permission at Berlin, the prohibitive order was decreed, and will become effective throughout all Germany.

### ILLINOIS COLLEGE NOTES

In the death of Professor Fredrick W. Sanford Illinois College has lost one of her most loyal and distinguished alumni, and the cause of American Classical scholarship has lost a very worthy representative. Professor Sanford was a member of the class of 1890, a class which made a fine record in College and includes among others such men as Albert Baldwin of Duluth, Dr. Isaac Raylins Director of the State Department of Public Health, and Harry M. Capps of Jacksonville. Sanford was very active in various student affairs while in College, serving for a year as editor-in-chief of the Rambler. He was one of the leaders in his Society—Phi Alpha, and also was much interested in athletics. He specialized in Latin. Immediately upon graduation he was appointed by President Tanner as assistant instructor in Whipple Academy and a little later became instructor in Latin and French in the College, being promoted to a professorship in Latin in the presidency of President Bradley. He remained on the College faculty until 1902 when he went to the University of Chicago as an instructor in Latin and a graduate student. He was called from Chicago to the faculty of the University of Nebraska, where he was at the time of his death head of the Department of Latin. Professor Sanford has written several articles in the field of Latin and is the joint editor of "A Junior Latin Reader" published in 1923 by Scott, Foreman Company.

The large registration in the freshman class of the college is especially remarkable in view of the fact that the rate of tuition in the College was increased for the coming year from \$125. to \$150. The trustees naturally expected there might be some decrease in registration as a result of this increase in tuition, but such will not be the case. There is now a waiting list of prospective freshmen who will enter in case there are cancellations of registrations at the beginning of College.

As a result of this increase in registration, it is probable that the girls' room in the Jones building will have to be thrown into the Chapel. It is possible that arrangements will be made for a girls rest room in the David A. Smith home which was recently purchased for the use of the girls of the College.

Several improvements have been made as usual on the College campus during the summer. A number of new walks have been constructed, especially from the dormitory to Sturtevant and to the Club House. A new chemical desk has been installed in the basement laboratory for advanced chemistry. The most important improvement, however, is the purchase of the Smith home a social center for the girls. A new furnace is being installed in that building and electric wiring is also being installed. The old house is so beautiful and well arranged in its interior construction that no material changes will be necessary but it will be very well adapted to the uses which the women expect to make of it.

Professor Brinkley and his family, consisting of his wife and one child, are expected to arrive next week. They have rented an apartment at the home of Miss Allie Marsh on Mound Avenue. Mr. Brinkley is the new man who will be in charge of the Department of Psychology and Education. He returned a few years ago from educational work in China and has practically completed his work for the doctor's degree at Columbia this summer.

The Gamma Nu Literary Society is making important improvements in its quarters in the north end of Crampton Hall. The room is being replastered and redecorated and a new set of chairs will be provided at the opening of college. Although the youngest of the literary societies of the college, Gamma Nu is making decided progress, and assuming an important place among the student organizations.

It seems that Charlie Bryan, the Vice Presidential candidate, must have been very popular with the girls in his student days at the College. The following item occurred in the Rambler of February 24th, 1883: "Bryan of Whipple informs us that he has been engaged to escort the young ladies of the Female Academy on their regular daily walks around that institution."

### WHITE HALL

White Hall, Aug. 30.—Mrs. Mabel Graham, daughter of the late Frank Kendall, in a communication from Hollywood, Calif., encloses \$10 to apply on the fund for erecting flag receptacles at the graves of soldiers in the White Hall cemetery, the contribution coming jointly from the writer and her sister, Mrs. Minnie McKenzie. The letter says: "We both agree you have a most beautiful motive, and are only too glad to help the cause along. We are very glad you brought it to our attention, as of course we will always have an interest in the White Hall community." Representatives of local patriotic organizations will meet next Sunday afternoon with Miss Mabel Richert, president of the Legion Auxiliary, to perfect plans for the financing of the flag receptacle work that is

## PRICE EQUALITY A STEP TOWARD PROSPERITY

Roger W. Babson Sees the Better Balance Between Agricultural and Industrial Commodities as Benefit to All

Babson Park, Mass., Aug. 29. "We can never have any prolonged period of prosperity in this country unless all important groups have fair purchasing power and the disposition to use it," according to Roger W. Babson, the statistician, who today gave his interpretation of the utility effect of the recent rise in farm prices.

"If industrial conditions are good, work plentiful, and wages high in the large cities, many think this to be the basis of real prosperity; but such is not the case unless the agricultural sections are also prosperous. If the crops are good, land values increasing, and grain prices high, many think that prosperity is assured; but this is not true unless city wage workers are prosperous also. It is impossible for the country to be prosperous without both the industrial and agricultural groups happy. One is the hatchet and the other the handle; one is the lock and the other the key; one group cannot maintain the present standard of living without the other group enjoying it likewise. Moreover, both are like a team of horses. When either farm prices are abnormally low, compared with city wages, or when a period of industrial unemployment exists with satisfactory farming conditions, there is a brake on prosperity. This inequality has been one trouble with the situation during the past two years and is one reason why I was so bearish a year ago when everyone else was optimistic. Any real prosperity must be founded on an active demand and adequate purchasing power on the part of all large groups."

Every woman, every man, can now have a face clear as a Rose-Petal! are enough rich red-blood-cells in it. More red-blood-cells! That is what you need when you see pimples staring at you in the mirror. Blackheaded pimples are worse! Eczema is worse yet! You can try everything under the sun,—you'll find only one answer, more cell-power in your blood! The tremendous results, produced by an increase in red-blood-cells is one of the A. B. C.'s of medical science. Red-cells mean clear, pure, rich blood. They mean clear, ruddy, lovable complexions. They mean nerve power, because all your nerves are fed by your blood. They mean freedom forever from pimples, from the blackhead pest, from boils, from eczema and skin eruptions, from rheumatic impurities, from that tired, exhausted, run-down feeling. Red-blood-cells are the most important thing in the world to each of us. S. S. S. will build them for you. S. S. S. has been known since 1826, as one of the greatest blood-builders, blood-cleansers and system strengtheners ever produced. S. S. S. is sold at all good drug stores. The large size bottle is more economical.

**S.S.S. makes you feel like yourself again**

"It is in the light of this economic principle that the recent rise in farm prices is most significant and hopeful. Beginning in 1913 we had a fair adjustment between agricultural and industrial prices. Farm prices rose rapidly and for the greater part of the war they maintained a level above that of industrial commodities. By June 1920 agricultural prices were 200 percent above the 1913 levels. Industrial prices meantime had risen to 150 percent above pre-war averages. Then the greatest price decline in modern business history set in and, if we compare prices on these two groups one year later or in June 1921, we find agricultural products only 10 percent above 1913 prices while industrial commodities rested at a point 55 percent higher than the pre-war figure. This gave us a maladjustment of almost 50 percent and farm products have labored under this handicap until this spring. "The low point was established during the closing months of 1921, when crops went even under the 1913 base. In 1922 agricultural products and commodity prices in general climbed upward and the spread between the two groups remained badly strained. However, in 1923 commodity prices turned downward while the trend of leading farm products continued to climb upward, closing the gap the narrowest margin since 1921. Agricultural products had climbed to 40 percent while industrial products slumped to 60 percent over the 1913 base. "It is evident that legislative credit measures, co-operative marketing, and other means of buoyance failed to readjust the radical discrepancy between the price level of what the farmer bought and sold. However, since June new conditions have brought the agricultural price level to the highest point since 1920. Expanding agricultural purchasing power has automatically stimulated business. Practically every agricultural product has participated in the recovery. "The Babson Grain Price Index comprised of wheat, corn, oats, barley, and rye is now 165, or practically 68 percent over the extreme low of 1921. The reason for the current price level is easily traceable to the sharp contraction in output. The total production of the same five grains on a tonnage basis is the lowest since 1917 and based on the August 1 Government report is 7 percent under the previous five year final average. The world production of leading grains is low compared with the bumper crops of a year ago, yet the total is not far from the normal complement. As, however, there is no indication of any world shortage of agricultural products, there is no basis for now expecting any further marked advance from the present price level. "The only serious condition is in connection with corn. The crop has been handicapped by late spring, inclement weather, retarded growth, and now the possibility of early frosts. Without question this product is the strongest of the grain group. The main point is this, after nearly four years of hardship, the farmer's income is now showing signs of expanding to the point where there is a more normal balance between the price of products sold and the price of products purchased. General business—as reflected on the Babson chart still stands at 14 percent below normal—and while 1925 will be a better year than 1924, it does not promise any great boom. This better adjustment between prices, however, is a corner stone of the foundation for our next period of prosperity. Construction has begun."

## REAL CIRCUS IS COMING SOON

Circus coming folks, and it is the Carl Hagenbeck-Wallace, the largest wild animal show in the universe. The two exhibitions, afternoon and night, with the grand and gorgeous free street parade in the morning has been set for September 10th, and it will be the first big circus to appear here this summer.

Forty members of the advertising force arrived here this morning and within a short time after their arrival automobiles speeded to the country roads with gay and bright posters, and one or two billers with each auto. In the city itself the billposters, bannermen and lithographers started their work and by nightfall will complete their task of heralding the coming of the big show.

Many new and novel features are announced for the 1924 tour of this show of international reputation. Trained wild animals are in abundance and the group of eleven tigers and also the same number of lions, are said to be the largest animal acts ever offered the public. During the winter months, while the circus was touring the big cities, several trainers were busy at the quarters in West Baden, Ind., getting these acts ready for the summer dates.

Arenic stars in great profusion will be found on the program, and as usual the Hagenbeck-Wallace management claims that its horse numbers are without equal. Nothing has been omitted, it is

## A Jacksonville Citizen After Thinking It Over Reaches Right Decision

Jacksonville, Ill., Aug. 25, 1924.  
To Secretary,  
Cigarmakers Union,  
City.

Dear Sir:  
I wish to commend the advertising which has been done in recent months in the interest of Jacksonville-made cigars, and presume that this has been done jointly by the manufacturers and yourselves. This action on your part is a move in the right direction, and I trust is proving a profitable one.

I have been a smoker for a great many years and must admit that I have been consuming a brand manufactured elsewhere than in our fair city, and it was a good cigar, too. But after watching your ads from week to week and noting what happened to the cigar industry here, how that many men were out of work due to falling off in sales,

I began to see a light—began to understand just what this was meaning in the economic life of Jacksonville.

Arriving at such understanding it didn't take me long to come to a decision—smoke a Jacksonville cigar and do my bit toward helping keep in employment those who were helping to keep the city I love on the map; and, furthermore, to bring this matter to the attention of any erring friend on every occasion.

I quickly found a cigar that was the exact counterpart of the brand I had been accustomed to, and will say that it's proving an even better one. (Won't say what make it is as that wouldn't be fair to the others listed in your advertisements; however I've smoked a few of about every brand made in this city and they are all pretty darn good).

In closing I can't help but take just

a little rap at the manufacturers for the situation in which you fellows found yourselves, and I hope the truth of the matter will be seen and I be pardoned—it's this: Whose fault has it been, and to some extent is, right now, that the hundreds of smokers of "outside cigars" here in Jacksonville have been left almost entirely in the dark with respect to this splendid industry and its output? Why aren't Jacksonville cigars advertised individually, the brands made a by-word among smokers?

What you are doing is fine and no doubt has converted many already, but many more can be converted to "Jacksonville way" and the cigar industry made to surpass your fondest dreams.

Wishing you all the success in the world, I remain,

Sincerely yours,

V. E. T. SMOKER.

BELIEVES IN STRICT  
LAW ENFORCEMENT

Federal Judge Louis Fitzhenry  
Sees Difficulties of Prohibition  
Act and the Need For Its En-  
forcement

For months past Federal Judge Louis Fitzhenry has from time to time expressed pronounced views upon the prohibition law and has made clear his belief in both the necessity and possibility of enforcing the law. Judge Fitzhenry was recently quoted in the Bloomington Pantagraph as follows:

"The prohibition law is giving the United States the most severe test of its efficiency and integrity that it has had since it met the issues raised by the Civil war.

"Enforcement has proceeded far enough to demonstrate that the government is powerful enough to practically enforce any mandate which congress may write into law. This great power is largely due to the fact that when congress writes a law the responsibility for its enforcement devolves upon a single officer, and that one only. Everybody at once knows upon whom the responsibility for a lax enforcement of the law devolves. So far there never has been a president in the white house who felt at liberty to flout the wisdom of congress in the enactment of a penal law, and there probably never will be one, regardless of what his personal view may be with reference to the desirability of the particular measure.

"Woodrow Wilson vetoed the Volstead act because it carried with it war prohibition, which he thought should have been abandoned because the war was over. Congress passed the law over his veto and the government is still pursuing the trails of rigid enforcement of prohibition which he blazed during the first few years of the law. Notwithstanding the fact that Wilson vetoed the law, it would be difficult to conceive of a more rigid, sincere enforcement of the prohibition law than the country experienced under him.

"The chief difficulty with prohibition enforcement thruout the country today is due to the timidity of local officers who are earnestly solicitous as to their own welfare at the fall elections. Illinois is a striking example of this situation. During the years of prohibition the entire burden of enforcement was passed by the state officers to the federal government. In some of the counties which had been 'dry' before national prohibition, local enforcement has relieved the federal authorities from the burden; but, in the so-called 'wet' sections, where a discretionary enforcement of the criminal laws to suit the local constituency had obtained, many of the local officers openly stated, 'Now that we have federal prohibition, let the

What  
Delco  
Ignition  
does for your  
FORD

The new Delco Ignition for Fords brings to your Ford all the advantages of the world's finest electrical system. It delivers a fat, hot spark—keeps plugs from fouling—spark advances automatically with your speed—combustion is better—you get more power and more mileage from gasoline. Delco will make a Ford engine run smoother at any speed.

A simple device permits accurate adjustment of timing to keep your engine always in tune. Delco will last for years.

federal government enforce it.' So, in these several localities the police power of the state was simply abandoned and the federal government looked to, to perform that function. The situation is now clarifying itself. Local officers are coming to realize that each of them have taken an oath to support and defend the constitution of the United States and they are making a sincere effort to do so.

"Of course, it is probable, there never will be a complete eradication of the manufacture, transportation and sale of intoxicating liquor for use as a beverage. Murder, rape, arson, burglary and larceny have long been denounced by the penal codes of the various sovereignties and yet conduct within the description of these crimes is of frequent occurrence, and we may expect the same experience in enforcing prohibition that we have always had with other criminal laws.

"I do not take any stock in the claim that prohibition cannot be enforced. I think the people pretty generally are in favor of its rigid enforcement, for this reason: Those who believe in prohibition, of course, want it enforced; those who do not believe in a law of this character, know that the present law will not be changed until there has been an enforcement, and, a resulting failure.

"The federal courts have done and are doing marvelous work in enforcing the provisions of the Volstead act; in fact they have done everything humanly possible in the light of the fact that there is altogether too much lost motion by enforcement agencies. The treasury department is charged by law with the enforcement of prohibition. It has its commissioner, director, general agents, agents and attorneys, and yet all these officers can do is to turn their evidence over to the United States attorney.

"He, a subordinate officer of the attorney general, must exercise the official discretion for the government as to the desirability of a prosecution, in a particular case, and then, if he decides that it is meritorious, it is he who must prosecute it to a conviction or an acquittal. By reason of lack of co-operation at the right time between these agencies, many cases are poorly or improperly made, which must eventually be disposed of by experience. Prohibition is a complete revolution of our heretofore fixed policy, and it cannot be expected that perfect administration would be manifest at the outset."

BABY ENTRIES PASS  
ONE HUNDRED MARK

More than one hundred babies have now been entered in the Better Baby Conference to be held at the Morgan County Fair next week. The exact number on the list Saturday morning was 105. Entries will be received up to and including Monday.

Dr. Thomas A. Mann, county health officer, states that these late entries will be handled with the least possible inconvenience to the parents. Children entered so late cannot be scheduled with as much ease as those entered a week ago, but all efforts will be made to handle additional entries with rapidity.

Names of new entries, the person filling out the entry blank and the address follow:
